FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0233; FRS 16531]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper

performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before May 4, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418–2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0233.

Title: Part 54—Rate-of-Return Carrier Universal Service Reporting Requirements.

Form Number: FCC Form 507, FCC Form 508 and FCC Form 509.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 1,095 respondents; 4,044 responses.

Estimated Time per Response: 1–22 hours.

Frequency of Response: On occasion and annual reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151–154, 214, 218–220, 221(c), 254, and 303(r).

Total Annual Burden: 43,638 hours.

Total Annual Cost: No Cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: No assurance of confidentiality has been given regarding the information.

However, respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the FCC's rules.

Needs and Uses: In order to determine which carriers are entitled to universal service support, all rate-of-return regulated (rate-of-return) incumbent local exchange carriers (LECs) must provide the National Exchange Carrier Association (NECA) with the loop cost and loop count data required by section 54.1305 for each of its study areas and, if applicable, for each wire center as that term is defined in 47 CFR part 54. See 47 CFR 54.1305 and 54.5. The loop cost and loop count information is to be filed annually with NECA by July 31st of each year, and may be updated occasionally pursuant to section 54.1306. See 47 CFR 54.1306. Pursuant to section 54.1307, the information filed on July 31st of each year will be used to calculate universal service support for each study area and is filed by NECA with the Commission on October 1 of each year. See 47 CFR 54.1307. An incumbent LEC is defined as a carrier that meets the definition of "incumbent local exchange carrier" in section 51.5 of the Commission's rules. See 47 CFR 51.5.

In March 2016, the Commission adopted the *Rate-of-Return Reform Order* to continue modernizing the universal service support mechanisms for rate-of-return carriers. The *Rate-of-Return Reform Order* replaced the Interstate Common Line Support (ICLS) mechanism with the Connect America Fund—Broadband Loop Support (CAF–

BLS) mechanism. While ICLS supported only lines used to provide traditional voice service (including voice service bundled with broadband service), CAF-BLS also supports consumer broadband-only loops. In March 2016, the Commission adopted the *Rate-of-Return Reform Order* to continue modernizing the universal service support mechanisms for rate-of-return carriers. The *Rate-of-Return Reform Order* replaced the Interstate Common Line Support (ICLS) mechanism with the Connect America Fund—Broadband Loop Support (CAF-BLS) mechanism. While ICLS supported only lines used to provide traditional voice service (including voice service bundled with broadband service), CAF-BLS also supports consumer broadband-only loops. For the purposes of calculating and monitoring CAF-BLS, rate-of-return carriers that receive CAF-BLS must file common line and consumer broadband-only loop counts on FCC Form 507, forecasted common line and consumer broadband-only loop costs and revenues on FCC Form 508, and actual common line and consumer broadband-only loop costs and revenues on FCC Form 509. See 47 CFR 54.903(a).

In December 2018, the Commission adopted the *December 2018 Rate-of-Return Reform Order* to require rate-of-return carriers that receive Alternative Connect American Model (A-CAM) or Alaska Plan support to file line count data on FCC Form 507 as a condition of high-cost support. Historically, all rate-of-return carriers received CAF BLS or, prior to that, ICLS, and were required to file line count data on FCC Form 507 as a condition of that support. In recent years, some rate-of-return carriers have elected to receive A-CAM I, A-CAM II, or Alaska Plan instead, and those carriers were not required to file line count data because the requirement to file applied only to rate-of-return carriers receiving CAF BLS. In order to restore a data set that the Commission relied on to evaluate the effectiveness of its high-cost universal service programs, the Commission revised its rules in that Order to require all rate-of-return carriers to file that data. While carriers receiving CAF-BLS must file the line count data on March 31 for line counts as of the prior December 31, the A-CAM I, A-CAM II, and Alaska Plan carriers will be required to file on July 1 of each year to coincide with other existing requirements in OMB Control No. 3060-0986. *Connect America Fund et al.*, WC Docket No. 10-90 et al., Report and Order, Further Notice of Proposed Rulemaking and Order on Reconsideration, 33 FCC Rcd 11893

(2018) (*2018 Rate-of-Return Reform Order*). See also 47 CFR 54.313(f)(5).

The Commission therefore proposes to revise this information collection. We also propose to increase the burdens associated with existing reporting requirements to account for additional carriers that will be subject to those requirements.

Federal Communications Commission.

Secretary, Office of the Secretary.
