

Neoprene Sheeting Machines

An Australian plastics and packaging machinery distributor (HBM Pty Ltd) is seeking machinery designed to produce Neoprene (a synthetic rubber) Sheet. HBM is specifically seeking a U.S. manufacturer of equipment that can supply a sheet line to produce Neoprene sheet in the following thicknesses: 3, 4, 4, 10 and 20 mm. HBM would prefer establishing contact with the actual manufacturer rather than with a broker or agent.

HBM Pty Ltd is an Australian-owned machinery solutions agency, partnering with packaging and plastics equipment manufacturers from Europe and North America. HBM provides start-up to large-scale equipment solutions and support to the food, beverage, pharmaceutical and plastics manufacturing sectors throughout Australia and Oceania. More information on the company can be found at: www.hbm.com.au
