

3D Printers for Automotive Parts

Mexican-German Tier 2 supplier to the automotive industry, including Volkswagen Mexico, is looking for a 3D Printing Machines to initially buy and complement their own line of custom-machined automotive components. The business contact has also expressed interest in serving as a distributor of 3D Printing Machines and its supplies or raw materials. The buyer has 60 years of experience in engineering, process design, and machining for different industries, including automotive and aerospace, with companies such as Nissan, Mercedes Benz, Stellantis, ZF, Robert Bosch, John Deere, Thyssenkrupp, among others.

Please reach out to the trade lead point of contact in order to set up an introductory call with the company to explore business opportunities.

Trade Lead Point of Contact:

Monica Martinez, Commercial Specialist, U.S. Commercial Service - Mexico,
Monica.Martinez@trade.gov

If you are interested in this lead, please reach out to the trade lead POC and copy your local [U.S. Commercial Service \(USCS\) office specialist](#), who is also available to answer any of your export questions.
