## II. Summary of This Manufacturer Request

On March 19, 2020, EPA received a complete manufacturer request for a TSCA risk evaluation of D4 that was made by Dow Silicones Corporation, Elkem Silicones USA Corporation, Evonik Corporation, Momentive Performance Materials, Shin-Etsu Silicones of American, Inc.; and Wacker Chemical Corporation through the American Chemistry Council's Silicones Environmental, Health, and Safety Center (SEHSC). After determining the request was facially complete (*i.e.*, EPA determined that the request appeared to be consistent with the requirements in 40 CFR 702.37(b) through (d), such as including all the necessary information in those paragraphs), EPA notified the public of the receipt of the request on April 8, 2020 via a listserv announcement to stakeholders.

### A. What is octamethylcyclotetra-siloxane (D4)?

D4 is used to make other silicone chemicals and as an ingredient in some personal care products. This substance is listed on the TSCA Inventory with CA Index Name "Cyclotetrasiloxane, 2,2,4,4,6,6,8,8-octamethyl-" and the associated Chemical Abstracts Service Registry Number (CASRN) 556-67-2.

### B. What are the conditions of use?

The manufacturer request for a risk evaluation of D4 identifying conditions of use of interest to the manufacturer is included in docket EPA-HQ-OPPT-2018-0443. Subject to further analysis and public comment, EPA anticipates including activities identified in the request as conditions of use in the risk evaluation of D4.

EPA has identified additional conditions of use pursuant to 40 CFR

702.37(e)(3), which are also included in docket EPA-HQ-OPPT-2018-0443.

## III. Request for Comment

The docket associated with this request contains the manufacturer request (excluding information claimed as CBI), EPA's possible additional conditions of use as described 40 CFR 702.37(e)(3), and the basis for these possible additions. During the comment period, the public may submit comments and information relevant to the requested risk evaluation; in particular, commenters are encouraged to identify any information not included in the request that the commenters believe would be needed to conduct a risk evaluation, and to provide any other information relevant to EPA's possible additional conditions of use, such as information on other conditions of use of the chemical substance than those included in the request or in EPA's possible additional conditions of use. 40 CFR 702.37(e)(4). In addition, at any time prior to the end of the comment period, the requesting manufacturer(s) may supplement the original request with any new information it receives. 40 CFR 702.37(e)(5).

*Needs and Uses:* On December 21, 2001, the Commission released the 2001 TRS Cost Recovery Order, document FCC 01–371, published at 67 FR 4203, January 29, 2002, in which the Commission, among other things:

(1) Required internet-based TRS providers to submit certain projected TRS-related cost and demand data to the TRS Fund administrator to be used to calculate the rate; and

(2) directed the TRS Fund administrator to expand its data collection forms accordingly.

In 2003, the Commission released the 2003 Second Improved TRS Order, published at 68 FR 50973, August 25, 2003, which among other things required that TRS providers offer certain local exchange carrier (LEC)-based improved services and features where technologically feasible, including a speed dialing requirement which may entail voluntary recordkeeping for TRS providers to maintain a list of telephone numbers. See also 47 CFR 64.604(a)(3)(vi)(B).

In 2007, the Commission released the Section 225/255 VoIP Report and Order, published at 72 FR 43546, August 6, 2007, extending the disability access requirements that apply to telecommunications service providers and equipment manufacturers under 47 U.S.C. 225, 255 to interconnected voice over internet protocol (VoIP) service providers and equipment manufacturers. As a result, under rules implementing section 225 of the Act, interconnected VoIP service providers are required to publicize information about telecommunications relay services (TRS) and 711 abbreviated dialing access to TRS. See also 47 CFR 64.604(c)(3).

In 2007, the Commission also released the 2007 Cost Recovery Report and Order and Declaratory Ruling, published at 73 FR 3197, January 17, 2008, in which the Commission:

(1) Adopted a new cost recovery methodology for interstate traditional TRS and interstate STS based on the Multi-state Average Rate Structure (MARS) plan, under which interstate TRS compensation rates are determined by weighted average of the states' intrastate compensation rates, and which includes for STS additional compensation approved by the Commission for STS outreach;

(2) adopted a new cost recovery methodology for interstate captioned telephone service (CTS), as well as internet Protocol captioned telephone service (IP CTS), based on the MARS plan;

(3) adopted a cost recovery methodology for internet Protocol (IP) Relay based on a price cap like methodology;

(4) adopted a cost recovery methodology for VRS that adopted tiered rates based on call volume;

(5) clarified the nature and extent that certain categories of costs are compensable from the Fund; and

(6) addressed certain issues concerning the management and oversight of the Fund, including prohibiting financial incentives offered to consumers to make relay calls.

The 2007 TRS Cost Recovery Order requires that state relay administrators and TRS providers submit to the TRS Fund administrator the following information annually, for intrastate traditional TRS, STS, and CTS:

(1) The per-minute compensation rate(s) and other compensation received for the provision of TRS;

(2) whether the rate applies to session minutes or conversation minutes, which are a subset of session minutes;

(3) the number of intrastate session minutes; and

(4) the number of intrastate conversation minutes.

Also, STS providers must file a report annually with the TRS Fund administrator and the Commission on their specific outreach efforts directly attributable to the additional compensation approved by the Commission for STS outreach.

In 2011, to help prevent waste, fraud, and abuse, the Commission adopted three VRS orders to curtail these harmful practices. Each of these orders (collectively, the 2011 VRS Orders) included information collection requirements.

On April 6, 2011, in document FCC 11–54, the Commission released the 2011 Fraud Prevention Order, published at 76 FR 30841, May 27, 2011, which included several measures designed to eliminate the waste, fraud and abuse, while ensuring that VRS remains a viable and a valuable communication tool for Americans who use it on a daily basis.

On July 28, 2011, in document FCC 11–118 the Commission released the VRS Certification Order, published at 76 FR 47469, August 5, 2011, amending its rules for certifying internet-based TRS providers as eligible for payment from the Interstate TRS Fund (Fund) for their provision of internet-based TRS.

On October 17, 2011, in document FCC 11–155, the Commission released the Second VRS Certification Order, published at 76 FR 67070, October 31, 2011, addressing three petitions related to the VRS Certification Order by revising the burdens contained in the requirements for the submission of documentation of a provider's VRS equipment and technologies and the submission of documentation regarding sponsorship arrangements.

The following are the final information collection requirements contained in the 2011 VRS Orders:

(1) The Chief Executive Officer (CEO), Chief Financial Officer (CFO), or other senior executive of a TRS provider shall certify, under penalty of perjury, that: (1) Minutes submitted to the Interstate TRS Fund (Fund) administrator for

compensation were handled in compliance with the Commission's rules and are not the result of impermissible financial incentives to generate calls, and (2) cost and demand data submitted to the Fund administrator related to the determination of compensation rates are true and correct.

(2) VRS providers shall: (a) Submit to the Commission and the TRS Fund administrator a call center report twice a year and (b) notify the Commission and the TRS Fund administrator at least 30 days prior to any change to their call centers' locations.

(3) VRS providers shall submit detailed call data records (CDRs) and speed of answer compliance data to the Fund administrator.

(4) TRS providers shall use an automated record keeping system to capture the CDRs and shall submit such data electronically in standardized form to the TRS Fund administrator.

(5) internet-based TRS providers shall retain the CDRs that are used to support payment claims submitted to the Fund administrator for a minimum of five years, in an electronic format.

(6) VRS providers shall: (a) Maintain copies of all third-party contracts or agreements and make them available to the Commission and the TRS Fund administrator upon request; and (b) describe all agreements in connection with marketing and outreach activities in their annual submissions to the TRS Fund administrator.

(7) TRS providers shall provide information about their TRS whistleblower protections to all employees and contractors, in writing.

In 2018, the Commission released the IP CTS Modernization Order, published at 83 FR 30082, June 27, 2018, in which the Commission:

(1) Determined that it would transition the methodology for IP CTS cost recovery from the MARS plan to cost-based rates and adopted interim rates; and

(2) added two cost reporting requirements for IP CTS providers: (i) In annual cost data filings and supplementary information provided to the TRS Fund administrator, IP CTS providers that contract for the supply of services used in the provision of TRS, shall include information about payments under such contracts, classified according to the substantive cost categories specified by the TRS Fund administrator; and (ii) in the course of an audit or otherwise upon demand, IP CTS providers must make available any relevant documentation. 47 CFR 64.604(c)(5)(iii)(D)(1), (6).
