

operator-leased set-top boxes and November 1, 2011 if the MVPD does not allow its subscribers to self-install any cable modems or operator-leased set-top boxes.

47 CFR 76.1205(b)(1)(A) states that this requirement shall not apply to cases in which neither the manufacturer nor the vendor of the CableCARD-reliant device furnishes to purchasers appropriate instructions for self-installation of a CableCARD, and a manned toll-free telephone number to answer consumer questions regarding CableCARD installation but only for so long as such instructions are not furnished and the call center is not offered.

The requirements contained in Section 76.1205 are intended to ensure that consumers are able to install CableCARDS in the devices they purchase because we have determined this is essential to a functioning retail market.

47 CFR 76.1205(b)(2) states effective August 1, 2011, provide multi-stream CableCARDS to subscribers, unless the subscriber requests a single-stream CableCARD. This requirement will ensure that consumers have access to CableCARDS that are compatible with their retail devices, and can request such devices from their cable operators.

47 CFR 76.1205(b)(5) requires to separately disclose to consumers in a conspicuous manner with written information provided to customers in accordance with Section 76.1602, with written or oral information at consumer request, and on websites or billing inserts. This requirement is intended to ensure that consumers understand that retail options are available and that cable operators are not subsidizing their own devices with service fees in violation of Section 629 of the Act.

47 CFR 76.1207 states that the Commission may waive a regulation related to Subpart P ("Competitive Availability of Navigation Devices") for a limited time, upon an appropriate showing by a provider of multichannel video programming and other services offered over multichannel video programming systems, or an equipment provider that such a waiver is necessary to assist the development or introduction of a new or improved multichannel video programming or other service offered over multichannel video programming systems, technology, or products. Such waiver requests are to be made pursuant to 47 CFR 76.7.

47 CFR 76.1208 states that any interested party may file a petition to the Commission for a determination to provide for a sunset of the navigation

devices regulations on the basis that (1) the market for multichannel video distributors is fully competitive; (2) the market for converter boxes, and interactive communications equipment, used in conjunction with that service is fully competitive; and (3) elimination of the regulations would promote competition and the public interest.

47 CFR 15.118(a) and 47 CFR 15.19(d) (label and information disclosure)—The U.S. Bureau of the Census reports that, at the end of 2002, there were 571 U.S. establishments that manufacture audio and visual equipment. These manufacturers already have in place mechanisms for labeling equipment and including consumer disclosures in the form of owners' manuals and brochures in equipment packaging. The Commission estimate that manufacturers who voluntarily decide to label their equipment will need no more than 5 hours to develop a label or to develop wording for a consumer disclosure for owners' manuals/brochures to be included with the device. Once developed, we do not anticipate any ongoing burden associated with the revision/modification of the label, if used, or the disclosure.

Status Reports—Periodic reports are required from large cable multiple system operators detailing CableCARD deployment/support for navigation devices. (This requirement is specified in FCC 05–76, CS Docket No. 97–80).
