SUPPLEMENTARY INFORMATION:

Title: FERC–603, Critical Energy/Electric Infrastructure Information Data Request.

OMB Control No.: 1902–0197.

Type of Request: Three-year extension of the FERC–603 information collection

requirements with no changes to the current reporting and recordkeeping requirements.¹

Abstract: This collection is used by the Commission to implement procedures for individuals with a valid or legitimate need for access to Critical Energy/Electric Infrastructure Information (CEII), which is exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552), subject to a non-disclosure agreement.

On February, 21, 2003, the Commission issued Order No. 630 (66 FR 52917) to address the appropriate treatment of CEII in the aftermath of the September 11, 2001 terrorist attacks and to restrict access due to the ongoing terrorism threat. Given that such information would typically be exempt from mandatory disclosure pursuant to FOIA, the Commission determined that it was important to have a process for individuals with a valid or legitimate need to access certain sensitive energy infrastructure information. As such, the Commission's CEII process is designed to limit the distribution of sensitive infrastructure information to those individuals with a need to know in order to avoid having sensitive information fall into the hands of those who may use it to attack the Nation's infrastructure.² This collection was prepared as part of the implementation of the CEII request process.

On December 4, 2015, the President signed the Fixing America's Surface Transportation Act (FAST Act) into law, which directed the Commission to issue regulations aimed at securing and sharing sensitive infrastructure information.³ On November 17, 2016, in Order No. 833 (in Docket No. RM16–15), the Commission adopted a Final Rule implementing the FAST Act by

¹ The CEII request form and five versions of the non-disclosure agreement (General Non-Disclosure Agreement, Media Non-Disclosure Agreement, Federal Agency Acknowledgement and Agreement, State Agency Employee Non-Disclosure Agreement, and Consultant Non-Disclosure Agreement) are posted at <https://www.ferc.gov/legal/ceii-foia/ceii.asp>.

² The Commission defined CEII to include information about “existing or proposed critical infrastructure that: (i) relates to the production, generation, transportation, transmission, or distribution of energy; (ii) could be useful to a person planning an attack on critical infrastructure; (iii) is exempt from mandatory disclosure under the Freedom of Information Act, and (iv) does not simply give the location of the critical infrastructure. Critical infrastructure means existing and proposed systems and assets, whether physical or virtual, the incapacity or destruction of which would negatively affect security, economic security, public health or safety, or any combination of those matters.

³ Fixing America's Surface Transportation Act, Public Law 114–94, 61,003, 129 Stat. 1312, 1773–1779 (2015) (to be codified at 16 U.S.C. 824 *et seq.*) (FAST Act).
