

**DEPARTMENT OF ENERGY****Western Area Power Administration****Pacific Northwest-Pacific Southwest Intertie Project—Rate Order No. WAPA-192**

**AGENCY:** Western Area Power Administration, DOE.

**ACTION:** Notice of proposed extension of transmission service rates.

**SUMMARY:** Western Area Power Administration (WAPA) proposes to extend its existing transmission service rates for the Pacific Northwest-Pacific Southwest Intertie Project (Intertie) through September 30, 2023. The proposed rates are unchanged from the existing transmission service rates under Rate Schedules INT-FT5 and INT-NFT4 that expire on September 30, 2020.

**DATES:** A consultation and comment period will begin June 22, 2020 and end July 22, 2020. WAPA will accept written comments anytime during the consultation and comment period.

**ADDRESSES:** Written comments and requests to be informed of Federal Energy Regulatory Commission (FERC) actions concerning the proposed transmission service rate extension submitted by WAPA to FERC should be sent to: Ms. Tracey LeBeau, Regional Manager, Desert Southwest Customer Service Region, Western Area Power Administration, P.O. Box 6457, Phoenix, Arizona 85005-6457, or email: [dswpwrmrk@wapa.gov](mailto:dswpwrmrk@wapa.gov). WAPA will post information about the proposed transmission service rate extension and the written comments it receives to its website at: <https://www.wapa.gov/regions/DSW/Rates/Pages/intertie-rates.aspx>.

**FOR FURTHER INFORMATION CONTACT:** Ms. Tina Ramsey, Rates Manager, Desert Southwest Customer Service Region, Western Area Power Administration, P.O. Box 6457, Phoenix, Arizona 85005-6457, (602) 605-2565, or email: [dswpwrmrk@wapa.gov](mailto:dswpwrmrk@wapa.gov).

**SUPPLEMENTARY INFORMATION:** On August 22, 2013, FERC approved and confirmed Rate Schedules INT-FT5 and INT-NFT4 under Rate Order No. WAPA-157 for a 5-year period through April 30, 2018.<sup>1</sup> WAPA's Administrator, under his authority, subsequently approved the use of the existing Intertie transmission service rates for short-term sales for the period between May 1, 2018, and September 21, 2018. The Deputy

Secretary of Energy thereafter approved the transmission service rates on an interim basis from September 21, 2018, through December 3, 2018.<sup>2</sup> On December 3, 2018, FERC approved and confirmed the extension of Rate Schedules INT-FT5 and INT-NFT4 under Rate Order No. WAPA-181 through September 30, 2020.<sup>3</sup> In accordance with 10 CFR 903.23(a),<sup>4</sup> WAPA is proposing to extend the existing Intertie transmission service rates under Rate Schedules INT-FT5 and INT-NFT4 through September 30, 2023.

Extending these rate schedules through September 30, 2023, will provide WAPA and its customers time to evaluate the potential benefits of combining transmission service rates on Federal projects located within WAPA's Colorado River Storage Project Management Center (CRSP) and Desert Southwest Region (DSW). Ongoing efforts made towards combining transmission rates, which up to this time have been solely focused within DSW, have been expanded to include CRSP transmission system rates. Combining rates may lead to more efficient use of Federal transmission systems, diversify the customers who use those systems, and be financially advantageous. If, after a thorough evaluation, WAPA determines that combining transmission service rates will produce material benefits, it would initiate a public process before making a decision to combine the rates.

Additionally, repayments for federally funded project investments are due to Treasury at the end of fiscal years 2021, 2022, and 2023. Project repayment is consistent with the cost recovery criteria set forth in DOE Order RA 6120.2. The existing rates provide sufficient revenue to pay these required payments and all annual costs including interest expense.

**Legal Authority**

By Delegation Order No. 00-037.00B, effective November 19, 2016, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to WAPA's Administrator; (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary of Energy; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to FERC. By Delegation Order No. 00-002.00S,

effective January 15, 2020, the Secretary of Energy also delegated the authority to confirm, approve, and place such rates into effect on an interim basis to the Under Secretary of Energy. By Redlegation Order No. 00-002.10E, effective February 14, 2020, the Under Secretary of Energy further delegated the authority to confirm, approve, and place such rates into effect on an interim basis to the Assistant Secretary for Electricity.

In accordance with 10 CFR 903.23(a), WAPA has determined that it is not necessary to hold public information or public comment forums for this rate action but is initiating a 30-day consultation and comment period to give the public an opportunity to comment on the proposed extension. WAPA will review and consider all timely comments at the conclusion of the consultation and comment period and make adjustments to the proposal as appropriate.

## Needs and Uses

### Connect America Fund Phase II Auction

The Commission is requesting the Office of Management and Budget (OMB) approval for this revised information collection. On November 18, 2011, the Commission released the *USF/ICC Transformation Order and Further Notice of Proposed Rulemaking*, WC Docket No. 10–90 et al., FCC 11–161 (*USF/ICC Transformation Order and/or FNPRM*), which comprehensively reformed and modernized the high-cost program within the universal service fund to focus support on networks capable of providing voice and broadband services. Among other things, the Commission created the Connect America Fund (CAF) and concluded that support in price cap areas would be provided through a combination of “a new forward-looking model of the cost of constructing modern multi-purpose networks” and a competitive bidding process (CAF Phase II auction or Auction 903). The Commission also sought comment in the accompanying *USF/ICC Transformation FNPRM* on proposed rules governing the CAF Phase II auction, including basic auction design and the application process.

In the CAF Phase II auction, service providers competed to receive support of up to \$1.98 billion over 10 years to offer voice and broadband service in unserved high-cost areas. The information collection requirements reported under this collection are the result of several Commission decisions to implement the reform adopted in the

*USF/ICC Transformation Order* and move forward with conducting the CAF Phase II auction. In the *April 2014 Connect America Order*, WC Docket No. 10–90 et al., FCC 14–54, the Commission adopted various rules regarding participation in the CAF Phase II auction, the term of support, and the eligible telecommunications carrier (ETC) designation process. In the *Phase II Auction Order*, WC Docket No. 10–90 et al., FCC 16–64, the Commission adopted rules to govern the CAF Phase II auction, including the adoption of a two-stage application process, which includes a pre-auction short-form application to be submitted by parties interested in bidding in the CAF Phase II auction and a post-auction long-form application that must be submitted by winning bidders seeking to become authorized to receive CAF Phase II auction support. The Commission concluded, based on its experience with auctions and consistent with the record, that this two-stage application process balances the need to collect information essential to conducting a successful auction and authorizing CAF Phase II support with administrative efficiency.

On January 30, 2018, the Commission adopted a public notice that established the final procedures for the CAF Phase II auction, including the long-form application disclosure and certification requirements for winning bidders seeking to become authorized to receive CAF Phase II auction support. See *Phase II Auction Procedures Public Notice*, WC Docket No. 17–182 et al., FCC 18–6. The Commission also adopted the *Phase II Auction Order on Reconsideration*, WC Docket No. 10–90 et al., FCC 18–5, which modified the Commission's letter of credit rules to provide some additional relief for CAF Phase II auction support recipients by reducing the costs of maintaining a letter of credit.

The Commission proposes to reduce the number of respondents that are subject to this collection now that the CAF Phase II auction winning bidders have been announced.

#### **Rural Digital Opportunity Fund Auction**

On February 7, 2020 the Commission released the *Rural Digital Opportunity Fund Order*, WC Docket Nos. 19–126, 10–90, FCC 20–5 which will commit up to \$20.4 billion over the next decade to support up to gigabit speed broadband networks in rural America. The funding will be allocated through a multi-round, reverse, descending clock auction that favors faster services with lower latency and encourages intermodal competition

in order to ensure that the greatest possible number of Americans will be connected to the best possible networks, all at a competitive cost.

To implement the Rural Digital Opportunity Fund auction (or Auction 904), the Commission adopted new rules for the Rural Digital Opportunity Fund auction, including the adoption of a two-stage application process. Like with the CAF Phase II auction, this process includes a pre-auction short-form application to be submitted by parties interested in bidding in the Rural Digital Opportunity Fund auction (FCC Form 183) and a post-auction long-form application that must be submitted by winning bidders (or their designees) seeking to become authorized to receive Rural Digital Opportunity Fund support (FCC Form 683). The Commission is seeking approval for the short-form application (FCC Form 183) in a separate collection under the OMB control number 3060–1252.

This proposed revision seeks approval of the disclosures and certifications adopted by the Commission that must be made by winning bidders seeking to become authorized for Rural Digital Opportunity Fund support. The Commission plans to submit at a later date additional revisions or new collections for OMB review to address other reforms adopted in the above-referenced Order.

The Commission therefore proposes to revise this information collection to reflect these requirements to determine the recipients of Connect America Phase II auction and Rural Digital Opportunity Fund auction support.
