(d) Subject

Joint Aircraft System Component (JASC) Code 7230, Turbine Engine Compressor Section.

(e) Unsafe Condition

This AD was prompted by GE performing an updated lifing analysis on the high-pressure compressor (HPC) case. Based on this analysis, GE found new locations on the case that require fluorescent penetrant inspection (FPI), identified a new inspection interval for the existing FPI location, and added another part-numbered HPC case that requires inspection. The FAA is issuing this AD to prevent failure of the HPC case. The unsafe condition, if not addressed, could result in uncontained release of the HPC case, engine fire, and damage to the airplane.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Required Actions

Within 180 days after the effective date of this AD, replace TASK 05–21–02–200–001 in GE CF6–80E1 Engine Manual GEK99376 and the operator's existing continuous airworthiness maintenance program with TASK 05–21–02–200–001, dated September 15, 2015, from ESM 05–21–02, Life Limits 001 High Pressure Compressor HPC—Scheduled Maintenance Checks, of the GE CF6–80E1 Engine Manual GEK99376, Revision 48, dated September 15, 2019.

(h) Alternative Methods of Compliance (AMOCs)

(1) The Manager, ECO Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. You may email your request to: ANE-AD-AMOC@faa.gov.

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes Class E airspace extending upward from 700 feet at Gove County Airport, Quinter, KS, in support of IFR operations at the airport.

History

The FAA published a notice of proposed rulemaking in the **Federal Register** (85 FR 23495; April 28, 2020) for Docket No. FAA–2020–0298 to establish Class E airspace at Gove County Airport, Quinter, KS, in support of IFR operations at the airport. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11D, dated August 8, 2019, and effective September 15, 2019, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11D, Airspace Designations and Reporting Points, dated August 8, 2019, and effective September 15, 2019. FAA Order 7400.11D is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11D lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

The FAA is amending Title 14 Code of Federal Regulations (14 CFR) part 71 by establishing Class E airspace extending upward from 700 feet above the surface of the earth at Gove County Airport, Quinter, KS. The Class E airspace will be established to within 5.5 miles of the Gove County Airport. This area would provide airspace for new Area Navigation Procedures at Gove County Airport, Quinter, KS.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

- 1. The authority citation for part 71 continues to read as follows:

Conflict of Interest Rule—Retirement Investment Advice: Notice of Court Vacatur

AGENCY: Employee Benefits Security Administration, Department of Labor
ACTION: Final rule; technical amendment.

SUMMARY: This document implements the vacatur of the Department’s 2016 final rule defining who is a “fiduciary” under the Employee Retirement Income

Security Act of 1974. This document also reflects the removal of two prohibited transaction exemptions (PTEs 2016–01 and 2016–02) published with the 2016 final rule and the return of the amended prohibited transaction exemptions (PTEs 75–1, 77–4, 80–83, 83–1, 84–24, and 86–128) to their pre-amendment form. In addition, this document reinstates Interpretive Bulletin 96–1.

SUPPLEMENTARY INFORMATION: On April 8, 2016, the Department of Labor published a final regulation titled “Conflict of Interest Rule—Retirement Investment Advice” (Fiduciary Rule) defining who is a “fiduciary” of an employee benefit plan under section 3(21)(A)(ii) of the Employee Retirement Income Security Act of 1974 (ERISA) as a result of giving investment advice to a plan or its participants or beneficiaries for a fee or other compensation. The Fiduciary Rule also applied to the definition of a “fiduciary” of a plan (including an individual retirement account (IRA)) under section 4975(e)(3)(B) of the Internal Revenue Code of 1986 (Code). On the same date, the Department published two new administrative class exemptions from the prohibited transaction provisions of ERISA and the Code: The Best Interest Contract Exemption (PTE 2016–01) and the Class Exemption for Principal Transactions in Certain Assets Between Investment Advice Fiduciaries and Employee Benefit Plans and IRAs (PTE 2016–02), as well as amendments to the following previously granted exemptions: PTEs 75–1; 77–4; 80–83; 83–1; 84–24; and 86–128 (collectively, the PTEs).

On June 21, 2018, the United States Court of Appeals for the Fifth Circuit issued a judgment and mandate vacating the Fiduciary Rule, the new PTEs, and the amendments to the previously granted PTEs *in toto*. *Chamber of Commerce*, 885 F.3d 360 (5th Cir. 2018); Mandate at 2, *Chamber*, 885 F.3d 360 (No. 17–10238) (ECF No. 00514522178). The vacatur had the effect of reinstating the prior regulatory text, *i.e.*, the 1975 regulation¹ (1975 Regulation), reinstating Interpretive Bulletin 96–1, which had been removed and largely incorporated into the text of the
