

*H. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks*

The EPA interprets Executive Order 13045 as applying only to those regulatory actions that concern environmental health or safety risks that the EPA has reason to believe may disproportionately affect children, per the definition of “covered regulatory action” in section 2–202 of the Executive Order. This action is not subject to Executive Order 13045 because this proposed SIP conditional approval, if finalized, will not in-and-of itself create any new regulations, but will simply conditionally approve certain State requirements for inclusion in the SIP.

*I. Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution, or Use*

This action is not subject to Executive Order 13211, because it is not a significant regulatory action under Executive Order 12866.

*J. National Technology Transfer and Advancement Act (NTTAA)*

Section 12(d) of the NTTAA directs the EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impractical. The EPA believes that this action is not subject to the requirements of section 12(d) of the NTTAA because application of those requirements would be inconsistent with the CAA.

*K. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Population*

The EPA lacks the discretionary authority to address environmental justice in this rulemaking.

**Magnuson-Stevens Act Provisions; Fisheries of the Northeastern United States; Atlantic Herring Fishery; Framework Adjustment 6 and the 2019–2021 Atlantic Herring Fishery Specifications**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule; request for comments.

**SUMMARY:** We are proposing regulations to implement Framework Adjustment 6 to the Atlantic Herring Fishery Management Plan, including the 2019–2021 fishery specifications and management measures, as recommended by the New England Fishery Management Council. In addition, Framework 6 would update the overfished and overfishing definitions for the herring fishery and suspend the carryover of unharvested catch for 2020–2021. The specifications and management measures are intended to meet conservation objectives while providing sustainable levels of access to the fishery. We are also proposing updating and clarifying specific herring regulations.

**DATES:** Public comments must be received by February 12, 2020.
