

Service to develop a CCP for each National Wildlife Refuge. The purpose of developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System (NWRS), consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation, and photography, environmental education, and interpretation. We will review and update the CCP at least every 15 years in accordance with the Improvement Act.

Each unit of the NWRS was established for specific purposes. We use these purposes as the foundation for developing and prioritizing the management goals and objectives for each refuge within the NWRS, and to determine how the public can use each refuge. The planning process is a way for us to evaluate management goals and objectives that will ensure the best possible approach to wildlife, plant, and habitat conservation, while providing for wildlife-dependent recreation opportunities that are compatible with each refuge's establishing purposes and the mission of the NWRS.

Additional Information

The final CCP may be found at <https://go.usa.gov/xPm3r>. The final CCP includes detailed information about the planning process, WMAs, issues, and management alternative selected. The website also includes an EA, prepared in accordance with the National Environmental Policy Act (NEPA) (43 U.S.C. 4321 *et seq.*). The EA includes discussion of three alternative management options. The Service's selected alternative is reflected in the final CCP, and also in the FONSI.

The selected alternative focuses on reducing the existing North Central Valley wetland easement acquisition objective by 19,000 acres, and adding an agricultural easement objective by the same amount. The CCP also describes limiting wetland easement acquisition to Butte, Colusa, Glenn, Placer, Sutter, Yolo, and Yuba Counties. All three alternatives included the acquisition of up to 3,321 additional acres of Service-

owned lands from willing landowners in the North Central Valley WMA.

National Environmental Policy Act Compliance

We announce our decision and the availability of the FONSI for the Final CCP/EA for the Butte Sink, Willow Creek—Lurline, and North Central Valley Wildlife Management Areas, in accordance with the National Environmental Policy Act requirements (40 CFR 1506.6(b)). We completed a thorough analysis of impacts on the human environment, which we included in the draft EA that accompanied the Draft CCP. This notice is in addition to our announcement of the completion of the CCP process on the Refuge Complex website.

The final EA discusses the direct, indirect, and cumulative impacts of the alternatives on biological resources, cultural resources, water quality, and other environmental resources. Measures to minimize adverse environmental effects are identified and discussed in the final CCP/EA.

Priscilla Wheeler,

Acting Regional Director, Sacramento, California.

Notice of Inventory Completion: Tennessee Valley Authority, Knoxville, TN

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The Tennessee Valley Authority (TVA) has completed an inventory of human remains and associated funerary objects in consultation with the appropriate Federally-recognized Indian Tribes and has determined that there is no cultural affiliation between the human remains and associated funerary objects and any present-day Federally-recognized Indian Tribes. Representatives of any Federally-recognized Indian Tribe not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request to the TVA. If no additional requestors come forward, transfer of control of the

human remains and associated funerary objects to the Federally-recognized Indian Tribes stated in this notice may proceed.

DATES: Representatives of any Federally-recognized Indian Tribe not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to the TVA at the address in this notice by May 21, 2020.

ADDRESSES: Dr. Thomas O. Maher, TVA, 400 West Summit Hill Drive, WT11C, Knoxville, TN 37902-1401, telephone (865) 632-7458, email tomaher@tva.gov.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects under the control and possession of the Tennessee Valley Authority, Knoxville, TN. The human remains and associated funerary objects were removed from the Cox Site, 40AN19, in Anderson County, TN, by amateur archeologists digging at the site.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3) and 43 CFR 10.11(d). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains and associated funerary objects was made by TVA's professional staff in consultation with representatives of the Absentee-Shawnee Tribe of Indians of Oklahoma; Alabama-Coushatta Tribe of Texas (previously listed as Alabama-Coushatta Tribes of Texas); Cherokee Nation; Coushatta Tribe of Louisiana;
