Pesticide Registration Review; Interim Decisions and Case Closures for Several Pesticides; Notice of Availability

AGENCY: Environmental Protection

Agency (EPA). **ACTION:** Notice.

SUMMARY: This notice announces the availability of EPA's interim registration review decisions for the following chemicals: 2-Phenethyl propionate, ammonium bromide, Bacillus sphaericus, chloropicrin Colletotrichum gloeosporioides, Cuelure [2-butanone, 4 (4-acetyloxy)-acetate], cyazofamid, Extract of Reynoutria sachalinensis, fluroxypyr, flumethrin, glycolic acid and salts, iodine and iodophors, Methyl Anthranilate, momfluorothrin, oxamyl, pelargonic acid, salts and esters, phenmedipham, Phosphoric acid and its salts, pyridaben, Pythium oligandrum

DV 74, Straight Chain Lepidopteran Pheromones, sethoxydim, tetraacetylethylenediamine (TAED), thymol, tralopyril, and triclosan. In addition, it announces the closure of the registration review case for *Phytophthora palmivora* because the last U.S. registrations for this pesticide have been canceled.

FOR FURTHER INFORMATION CONTACT:

For pesticide specific information, contact: The Chemical Review Manager for the pesticide of interest identified in the Table in Unit IV.

For general information on the registration review program, contact: Melanie Biscoe, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: (703) 305–7106; email address: biscoe.melanie@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the pesticide specific contact person listed under the FOR FURTHER INFORMATION **CONTACT** section.

II. Background

Registration review is EPA's periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for

registration, that is, the pesticide can perform its intended function without unreasonable adverse effects on human health or the environment. As part of the registration review process, the Agency has completed interim decisions for all pesticides listed in the Table in Unit IV. Through this program, EPA is ensuring that each pesticide's registration is based on current scientific and other knowledge, including its effects on human health and the environment.

III. Authority

EPA is conducting its registration review of the chemicals listed in the Table in Unit IV pursuant to section 3(g) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. Section 3(g) of FIFRA provides, among other things, that the registrations of pesticides are to be reviewed every 15 years. Under FIFRA, a pesticide product may be registered or remain registered only if it meets the statutory standard for registration given in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)). When used in accordance with widespread and commonly recognized practice, the pesticide product must perform its intended function without unreasonable adverse effects on the environment; that is, without any unreasonable risk to man or the environment, or a human dietary risk from residues that result from the use of a pesticide in or on food.

IV. What action is the Agency taking?

Pursuant to 40 CFR 155.58, this notice announces the availability of EPA's interim registration review decisions for the pesticides shown in the following table. The interim registration review decisions are supported by rationales included in the docket established for each chemical.

The proposed interim registration review decisions for the chemicals in the table above were posted to the docket and the public was invited to submit any comments or new information. EPA addressed the comments or information received during the 60-day comment period for the proposed interim decisions in the discussion for each pesticide listed in the table. Comments from the 60-day comment period that were received may or may not have affected the Agency's interim decision. Pursuant to 40 CFR 155.58(c), the registration review case docket for the chemicals listed in the Table will remain open until all actions required in the interim decision have been completed.

This document also announces the closure of the registration review case for *Phytophthora palmivora* (Case 4105, Docket ID Number, EPA–HQ–OPP–2016–0451) because the last U.S. registrations for this pesticide have been canceled.

Background on the registration review program is provided at: http://www.epa.gov/pesticide-reevaluation.

Pesticide Registration Review; Proposed Interim Decisions for Several Neonicotinoid Pesticides; Re-Opening of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; re-opening of comment period.

SUMMARY: EPA issued a notice in the Federal Register of February 3, 2020, concerning the availability of EPA's Proposed Interim Registration Review Decision for several neonicotinoids (acetamiprid, clothianidin, dinotefuran, imidacloprid, and thiamethoxam; hereafter referred to as "neonicotinoids"). The neonicotinoids were opened for a 60-day public comment period that concluded on April 3, 2020. However, a 30-day extension to the public comment period was granted, which concluded on May 4, 2020. This notice re-opens the public comment for an additional 30 days, from May 19, 2020 to June 18, 2020. This action to extend the public comment period is being taken after receiving public comments requesting additional time to review the Neonicotinoids' Proposed Interim Registration Review Decisions and supporting materials citing the quantity and complexity of the Proposed Interim Decisions and supporting documents, as
