III. Under Part C, Section C–B, Organization and Functions, insert the following:

- *Agency for Toxic Substance and Disease Registry (J).* The mission of the Agency for Toxic Substances and Disease Registry (ATSDR) is to protect communities from harmful health effects of hazardous waste sites and hazardous material spills. The ATSDR responsibilities are specified in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) as amended in the Superfund Amendments and Reauthorization Act of 1986 and in amendments (Hazardous and Solid Waste Amendments of 1984) to the Resource Conservation and Recovery Act (RCRA). ATSDR works closely with state, tribal, territory, local, other federal agencies, and other organizations to reduce or eliminate illness, disability, and death that result from exposure of the public to toxic substances at spill and waste disposal sites. Through additional laws, ATSDR provides environmental support to other national efforts, such as the disposal of medical wastes. To carry out its CERCLA mission, ATSDR:

(1) Evaluates data and information on the release of hazardous substances into the environment to assess any current or future impact on public health, develops health advisories or other health recommendations, and identifies studies or actions needed to evaluate and mitigate or prevent adverse human health effects; (2) summarizes and interprets available data on the health effects of hazardous substances in consultation with the Environmental Protection Agency (EPA) and other programs and Public Health Service (PHS) agencies, and in cooperation with the National Toxicology Program, initiates toxicologic research to determine the health effects of designated hazardous substances, where needed; (3) provides health-related
