For these items, Government officials will share data with NSTAC members on ongoing NS/EP, cybersecurity, and communications resiliency initiatives across the public and private sectors. The information discussed will include specific vulnerabilities that affect the United States’ ICT/5G infrastructures and proposed mitigation strategies. The premature disclosure of this information to the public would be likely to significantly frustrate implementation of proposed agency action. Therefore, this portion of the meeting is required to be closed pursuant to section 10(d) of FACA and *The Government in the Sunshine Act* (5 U.S.C. 552b(c)(9)(B)).
