

EPA will provide notice of the final calculations of the amounts of additional allowances that must be surrendered, incorporating any adjustments made in response to objections received, as required under 40 CFR 97.825(b)(2)(iii)(B). Each set of owners and operators identified pursuant to the notice of the final calculations must hold the required additional allowances in an assurance account by November 2, 2020.

The data and preliminary calculations are set forth in an Excel spreadsheet entitled "2019_CSAPR_assurance_provision_calculations_prelim.xlsx" available at <http://www.epa.gov/csapr/csapr-assurance-provision-nodas>. The spreadsheet contains data for the 2019 control period showing, for each Mississippi unit identified as affected under the CSAPR NO_x Ozone Season Group 2 Trading Program, the amount of NO_x emissions reported by the unit and the amount of CSAPR NO_x Ozone Season Group 2 allowances allocated to the unit, including any allowances allocated from a new unit set-aside. The spreadsheet also contains calculations for the 2019 control period showing the total NO_x emissions reported by all such units and the amount by which the total reported NO_x emissions exceeded the state's assurance level under the program. Finally, the spreadsheet also includes calculations for the 2019 control period showing, for each common designated representative for a group of such units in the state, the common designated representative's share of the total reported NO_x emissions, the common designated representative's share of the state's assurance level, and the amount of additional CSAPR NO_x Ozone Season Group 2 allowances that the owners and operators of the units in the group must surrender.

Any objections should be strictly limited to whether EPA has identified the data and performed the calculations in the spreadsheet correctly in accordance with the regulations. Objections must include (1) precise identification of the specific data or calculations the commenter believes are inaccurate, (2) new proposed data or calculations upon which the commenter believes EPA should rely instead, and (3) the reasons why EPA should rely on the commenter's proposed data or calculations and not the data and calculations referenced in this notice.

Authority: 40 CFR 97.825(b).

Director, Clean Air Markets Division, Office of Atmospheric Programs, Office of Air and Radiation.

Underground Injection Control Program; Hazardous Waste Injection Restrictions; Petition for Exemption Reissuance—Class I Hazardous Waste Injection; The Chemours Company, FC, LLC, Chemours Titanium Technologies DeLisle Plant, Pass Christian, Mississippi

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of a final decision on a UIC no migration petition reissuance.

SUMMARY: Notice is hereby given that a reissuance of an exemption to the Land

Disposal Restrictions, under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act, has been granted to The Chemours Company for Class I hazardous waste injection wells located at their Pass Christian, Mississippi facility. The company has adequately demonstrated to the satisfaction of the EPA by the petition reissuance application and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by The Chemours Company of the specific restricted hazardous wastes identified in this exemption reissuance request, into Class I hazardous waste injection Wells 2, 3, 4, and 5 until December 31, 2050, unless the EPA moves to terminate this exemption. Additional conditions included in this final decision may be reviewed by contacting the EPA Region 4 Ground Water, UIC, and GIS Section. A public notice was issued November 12, 2019 and the public comment period closed on December 31, 2019, and no comments were received. This decision constitutes final Agency action and there is no Administrative appeal.

DATES: EPA approved the action on February 28, 2020.

ADDRESSES: Copies of the petition reissuance and all pertinent information relating thereto are on file at the following location: Environmental Protection Agency, Region 4, Water Division, Safe Drinking Water Branch, 61 Forsyth Street Northeast, Atlanta, Georgia 30303.

FOR FURTHER INFORMATION CONTACT: Richie Hall, EPA Region 4, Groundwater, UIC, and GIS Section, by mail at the Atlanta street address given above, by telephone at (404) 562-8067, or by email at hall.richard@epa.gov.

Dated: May 8, 2020.
