Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit relevant comments on the topic of this advisory activity, including the charge to the CASAC and the EPA review documents, for the CASAC to consider as it develops advice for EPA. Input from the public to the CASAC will have the most impact if it provides specific scientific or technical information or analysis for CASAC to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should follow the instructions below to submit comments.

Oral Statements: Individuals or groups requesting an oral presentation during the face-to-face meeting will be limited to five minutes. Each person making an oral statement should consider providing written comments as

well as their oral statement so that the points presented orally can be expanded upon in writing. Interested parties should contact Mr. Aaron Yeow, DFO, in writing (preferably via email) at the contact information noted above by November 26, 2019, to be placed on the list of public speakers.

Written Statements: Written statements will be accepted throughout the advisory process; however, for timely consideration by CASAC members, statements should be supplied to the DFO (preferably via email) at the contact information noted above by November 26, 2019. It is the SAB Staff Office general policy to post written comments on the web page for the advisory meeting or teleconference. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its websites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the CASAC website. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact Mr. Aaron Yeow at (202) 564–2050 or yeow.aaron@epa.gov. To request accommodation of a disability, please contact Mr. Yeow preferably at least ten days prior to each meeting to give EPA as much time as possible to process your request.

Dated: October 22, 2019.

Khanna Johnston,

Deputy Director, EPA Science Advisory Staff Office.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1163]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this

opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before December 31, 2019. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–1163.

Title: Regulations Applicable to Broadcast, Common Carrier, and Aeronautical Radio Licensees Under Section 310(b) of the Communications Act of 1934, as amended.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 81 respondents; 81 responses.

Estimated Time per Response: 2 hours–46 hours.

Frequency of Response: On-occasion reporting requirement.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 151, 152, 154(i), 154(j), 160, 303(r), 309, 310 and 403.

Total Annual Burden: 1,830 hours.

Total Annual Cost: \$524,400.

Nature and Extent of Confidentiality:

In submitting the information request, respondents may need to disclose confidential information to satisfy the requirements. However, covered entities would be free to request that such materials submitted to the Commission be withheld from public inspection (see 47 CFR 0.459 of the Commission's rules).

Privacy Impact Assessment: No impacts(s).

Needs and Uses: The Federal Communications Commission ("Commission") is requesting a three-year extension of OMB Control No. 3060-1163 titled, Regulations Applicable to Broadcast, Common Carrier and Aeronautical Radio Licensees Under Section 310(b)(4) of the Communications Act of 1934, as amended.

Section 310(b)(4) of the Act requires that the Commission pass upon the propriety of foreign ownership of U.S. parent companies that control common carrier and aeronautical radio licensees before such ownership exceeds 25 percent. The Commission's section 310(b)(3) forbearance approach (applicable to common carrier licensees only) requires that the Commission pass upon the propriety of foreign ownership of common carrier radio licensees before such ownership exceeds 20 percent. The information collection will preserve the Commission's ability to disallow foreign investment that may pose a risk of harm to competition or national security, law enforcement, foreign policy, or trade policy.

If the information collection were not conducted or were conducted less frequently than proposed, the Commission would not be able to carry out its statutory mandate under section 310(b) of the Act, and its section 310(b)(3) forbearance policy, to disallow foreign investment that the Commission finds would be contrary to the U.S. public interest. In particular, the Commission would lack the information it needs to determine whether proposed foreign investment in U.S. broadcast, common carrier, and aeronautical radio licensees may pose a risk of harm to competition or national security, law enforcement, foreign policy, or trade policy.
