

Transmission, LLC and Adelphia Gateway, LLC at the proposed metering and regulating station. PennEast states it will continue to work towards acquiring the New Jersey authorizations for the Phase 2 facilities located in New Jersey.

On February 12, 2020, the Commission issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.

Schedule for Environmental Review

Issuance of EA—July 10, 2020

90-day Federal Authorization Decision

Deadline—October 8, 2020

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The 2020 Amendment Project would consist of a single metering and regulating station with two separate interconnections, measurement facilities, and a pig launcher and receiver. The new station, known as the Church Road Interconnects, is all located within a 2.1-acre site at Milepost 68.2R2 along the authorized PennEast Pipeline route, in Bethlehem Township, Northampton County, Pennsylvania.

Background

On February 28, 2020, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed PennEast 2020 Amendment Project, and Request for Comments on Environmental Issues* (NOI). The NOI was sent to federal, state, and local government agencies; Native American tribes; affected landowners; and interested parties that filed comments on the PennEast 2020 Amendment Project in response to the Notice of Application. All substantive comments will be addressed in the EA.
