

5. *Performance Measures*: We have established the following five performance measures for the MSAP:

(a) The number and percentage of magnet schools receiving assistance whose student enrollment reduces, eliminates, or prevents minority group isolation.

(b) The percentage increase of students from major racial and ethnic groups in magnet schools receiving assistance who score proficient or above on State assessments in reading/ language arts as compared to previous year's data.

(c) The percentage increase of students from major racial and ethnic groups in magnet schools receiving assistance who score proficient or above on State assessments in mathematics as compared to previous year's data.

(d) The percentage of magnet schools that received assistance that are still operating magnet school programs three years after Federal funding ends.

(e) The percentage of magnet schools that received assistance that meet the State's annual measurable objectives and, for high schools, graduation rate targets at least three years after Federal funding ends.

Note: Recognizing that States are no longer required to report annual measurable objectives to the Department under the ESEA, we include this performance measure in order to ensure MSAP grantees monitor and report high school graduation rates. States must establish and measure against ambitious, long-term goals; we encourage MSAP grantees to consider these State goals and incorporate them into their annual performance reporting as appropriate.

6. *Continuation Awards*: In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: Whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).
