

Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Western Alaska Community Development Quota (CDQ) Program.

OMB Control Number: 0648–0269.

Form Number(s): None.

Type of Request: Regular (extension of an approved collection).

Number of Respondents: 6.

Average Hours per Response: CDQ Vessel Registration System, 10 minutes; Groundfish/Halibut CDQ and PSQ Transfer Request, 30 minutes; Application for Approval of Use of Non-CDQ Harvest Regulations, 5 hours; Appeals, 4 hours.

Burden Hours: 46.

Needs and Uses: The Western Alaska Community Development Quota (CDQ) Program is an economic development program associated with federally managed fisheries in the Bering Sea and Aleutian Islands (BSAI). The purpose of the program is to provide eligible western Alaska communities with the opportunity to participate and invest in fisheries in the BSAI, to support economic development in western Alaska, to alleviate poverty and provide economic and social benefits to residents of western Alaska, and to achieve sustainable local economies in western Alaska. The Magnuson-Stevens Fishery Conservation and Management Act allocates a portion of the annual catch limit for each directed fishery of the BSAI management area among six non-profit entities (CDQ groups) that represent 65 western Alaska communities. The CDQ groups administer the CDQ allocations, investments, and economic development projects. The CDQ groups use the revenue derived from the harvest of their fisheries allocations to fund economic development activities and provide employment opportunities.

This information collection is comprised of four components.

- The CDQ Vessel Registration System is an online system used by the CDQ groups to add small hook-and-line catcher vessels to the CDQ vessel registration list. Registered vessels are exempt from the requirements to obtain and carry a License Limitation Program license under regulations at 50 part 679. This system is also used to remove vessels from the CDQ vessel registration list.

- The Groundfish/Halibut CDQ and Prohibited Species Quota (PSQ) Transfer Request form is used to transfer annual amounts of groundfish and

halibut CDQ and halibut PSQ between two CDQ groups. This form is completed by the transferring and receiving CDQ groups.

- The Application for Approval of Use of Non-CDQ Harvest Regulations is used by a CDQ group, an association representing CDQ groups, or a voluntary fishing cooperative to request approval to use non CDQ harvest regulations when the CDQ regulations are more restrictive than the regulations otherwise required for participants in non-CDQ groundfish fisheries.

- An appeals process is provided for an applicant who receives an adverse initial administrative determination (IAD) related to its Application for Approval of Use of Non-CDQ Harvest Regulations. No such adverse IADs have been issued to date. In general, the cooperative managers present the cooperative reports during the April.

Affected Public: Businesses or other for-profit organizations.

Frequency: Periodically.

Respondent's Obligation: Mandatory; Voluntary.

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska American Fisheries Act (AFA) Permits.

OMB Control Number: 0648–0393.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 27.

Average Hours per Response: 1 hour each for AFA Permit: Rebuilt, Replacement, or Removed Vessel Application and Application for Transfer of Bering Sea Chinook Salmon PSC Allocations; 2 hours for Application for AFA Inshore Catcher Vessel Cooperative Permit; 4 hours for AFA Inshore Vessel Contract Fishing Notification; 8 hours for Application for Approval as an Entity to Receive Transferable Chinook Salmon PSC Allocation.

Burden Hours: 251 hours.

Needs and Uses: The American Fisheries Act (AFA) was signed into law in October 1998. The purpose of the AFA was to tighten U.S. ownership standards that had been exploited under the Anti-reflagging Act, and to provide the Bering Sea and Aleutian Islands (BSAI) pollock fleet the opportunity to conduct their fishery in a more rational manner while protecting non-AFA participants in the other fisheries. The AFA established sector allocations in the BSAI pollock fishery, determined eligible vessels and processors, allowed the formation of cooperatives, set limits on the participation of AFA vessels in other fisheries, and imposed special catch weighing and monitoring requirements on AFA vessels.

This information collection contains five AFA permitting and reporting requirements.

- The AFA Permit: Rebuilt, Replacement, or Removed Vessel Application is submitted by an owner of an AFA vessel to notify NMFS the vessel has been rebuilt; to request an AFA permit for a replacement catcher vessel, catcher/processor, or mothership; or to request removal of an AFA catcher vessel that is a member of an inshore cooperative and assign its catch history to another vessel or vessels in the same cooperative.

- The Application for AFA Inshore Catcher Vessel Cooperative Permit is submitted annually by each AFA inshore catcher vessel cooperative to obtain an AFA Inshore Catcher Vessel Cooperative Permit and identify the vessels and processors that will be participating in the BSAI pollock fishery prior to the start of each fishing year.

- The AFA Inshore Vessel Contract Fishing Notification is submitted by an AFA inshore cooperative that intends to contract with a non-member vessel to harvest a portion of the cooperative's annual pollock allocation to notify NMFS of vessels that might be reporting with an alternative cooperative ID.

• The Application for Approval as an Entity to Receive Transferable Chinook Salmon PSC Allocation is submitted by an entity representing the catcher/processor sector or the mothership sector to request approval to receive transferable Chinook salmon PSC allocations on behalf of members of the sector. This application is also used to update contact and other information related to the entity and its members.

• The Application for Transfer of Bering Sea Chinook Salmon PSC Allocations is submitted by an authorized representative of the catcher/processor sector, the mothership sector, an inshore cooperative, or a CDQ group to transfer Chinook salmon PSC allocations to another entity's account.

Affected Public: Businesses or other for-profit organizations; Individuals or households, Not-for-profit institutions.

Frequency: On occasion, Annually.

Respondent's Obligation: Required to obtain or retain benefits.
