Subpart E—Tree Assistance Program

§ 1416.400 [Amended]

■ 26. Amend § 1416.400 in paragraph (a) by removing the words “by the Bipartisan Budget Act of 2018 (Pub. L. 115–123), and the Consolidated Appropriations Act, 2018 (Pub. L. 115–141)”.

■ 27. Amend § 1416.402 by adding in alphabetical order a definition for “Commercially viable” and revising the definition of “Natural disaster” to read as follows:

§ 1416.402 Definitions.

* * * * *

Commercially viable means an eligible tree, bush, or vine, though damaged, that can rejuvenate and return to an acceptable level of commercial production at some time with rehabilitation and without replanting. A commercially viable tree, bush, or vine, regardless of the extent of damage or years of reduced production, is always excluded and never included as part of mortality under § 1416.403.

* * * * *

Natural disaster means plant disease, insect infestation, drought, fire, freeze, flood, earthquake, lightning, or other natural occurrence. Each of these types of disasters must be extreme, abnormal, and damaging as well as of significant magnitude or severity, as determined by the Deputy Administrator.

■ 28. Amend § 1416.403 in paragraph (g) by adding two sentences to the end to read as follows:

§ 1416.403 Eligible losses.

* * * * *

(g) * * * The qualifying mortality loss will be determined based on the eligible trees, bushes, or vines that reached mortality, which means that the tree, bush, or vine died, above and below ground, as a result of an eligible natural disaster event. If an eligible tree, bush, or vine is damaged to such an extent that it is not commercially viable, now or at any time in the future, the tree, bush, or vine can be considered dead in determining if the requisite qualifying mortality loss threshold in paragraph (a) of this section is reached.
