overall response rate, which we expect to be about 42.2%.

#### II. Method of Collection

Web Push

The 2020 NSCH plan for the web push data collection design includes 70% of the estimated 240,000 production addresses receiving an initial invite with instructions on how to complete an English or Spanishlanguage screener questionnaire via the web. Households that decide to complete the web-based survey will be taken through the screener questionnaire to determine if they are eligible for one of three topical instruments. Households that list at least one child who is 0 to 17 years old in the screener are directed into a topical questionnaire immediately after the last screener question. If a household in the web push treatment group decides to complete the paper screener, the household may have a chance to receive an additional topical questionnaire incentive.

## Mixed-Mode

The 2020 NSCH plan for the mixedmode data collection design includes approximately 30% of the 240,000 production addresses receiving both an initial invite with a paper screener questionnaire and instructions on how to complete an English or Spanish language screener questionnaire via the web. Households that decide to complete the web-based survey will follow the same screener and topical selection path as the web push. Households that choose to complete the paper screener questionnaire rather than completing the survey on the internet and that have eligible children will be mailed a paper topical questionnaire upon receipt of their completed paper screener at the Census Bureau's National Processing Center. If a household in the mixed-mode group chooses to complete the paper screener instead of completing the web-based screener via the internet, then the household may receive an additional topical questionnaire incentive.

residences with children present) that completed a topical questionnaire. It is equal to I/HCt, where I is the count of completed topicals and HCt is the estimated count of households with children in the sample or S+R+(S+R)/(S+X+R) \* e(UR+UO).

Non-Response Follow-Up for the "High Web" Group and "High Paper" Group

The "High Web" group will receive two web survey invitation letters requesting its participation in the survey prior to receiving its first paper screener questionnaire in the second follow-up mailing. The "High Paper" group will receive both a web survey invitation letter along with a mailed paper screener questionnaire with the initial invitation and each follow-up mailing. Once a household in the "High Web" group receives a paper screener questionnaire, it will then have the option to either complete the web-based survey or complete the mailed paper screener, similar to the "High Paper" group. If the household chooses to complete the mailed paper questionnaire, then it would be considered part of the mailout/mailback paper-and-pencil interviewing treatment group. The paper-and-pencil treatment group receives a paper topical questionnaire, if there is at least one 0 to 17 year old eligible child reported on the screener. Nonresponse follow-up for the topical questionnaire will include up to one pressure-sealed postcard and up to three mailings including the paper topical questionnaire.

#### III. Data

OMB Control Number: 0607–0990. Form Number(s): NSCH–S1 (English Screener),

NSCH-T1 (English Topical for 0- to 5-year-old children),

NSCH–T2 (English Topical for 6- to 11-year-old children),

NSCH-T3 (English Topical for 12- to 17-year-old children),

NSCH-S-S1 (Spanish Screener), NSCH-S-T1 (Spanish Topical for 0to 5-year-old children),

NSCH–S–T2 (Spanish Topical for 6-to 11-year-old children), and

NSCH-S-T3 (Spanish Topical for 12-to 17-year-old children).

Type of Review: Regular submission. Affected Public: Parents, researchers, policymakers, and family advocates.

Estimated Number of Respondents: 94,370 for the screener and 39,596 for the topical.

Estimated Time per Response: 5 minutes per screener response and 33 minutes per topical response, which in total is approximately 38 minutes for households with eligible children.

Estimated Total Annual Burden Hours: 29,642 hours.

Estimated Total Annual Cost to Public: \$0 (This is not the cost of respondents' time, but the indirect costs respondents may incur for such things as purchases of specialized software or hardware needed to report, or expenditures for accounting or records maintenance services required specifically by the collection.)

Respondent's Obligation: Voluntary. Legal Authority: Title 13 U.S.C. Section 8(b); 42 U.S.C. 701; 1769d(a)(4)(B); and 42 U.S.C. 241.

# **IV. Request for Comments**

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

# Foreign-Trade Zones Board [B-71-2019]

Foreign-Trade Zone (FTZ) 134— Chattanooga, Tennessee; Notification of Proposed Production Activity; Volkswagen Group of America Chattanooga Operations, LLC; (Passenger Motor Vehicles); Chattanooga, Tennessee

Volkswagen Group of America Chattanooga Operations, LLC (Volkswagen), submitted a notification of proposed production activity to the FTZ Board for its facility in Chattanooga, Tennessee. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on November 6, 2019.

Volkswagen already has authority to produce passenger motor vehicles within within FTZ 134. The current request would add a foreign status component to the scope of authority.

<sup>&</sup>lt;sup>7</sup>Total Response Rate is the proportion of screener-eligible households that completed a screener or topical questionnaire. It is equal to (X+I+P)/(X+I+P+RS+eUS), where I is the count of completed topicals, P is the count of sufficient partial completed topicals, RS is screener refusals, and eUS is the estimated count of screener eligible households among nonresponding addresses.

Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status component described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Volkswagen from customs duty payments on the foreign-status components used in export production. On its domestic sales, for the foreignstatus component noted below, Volkswagen would be able to choose the duty rate during customs entry procedures that applies to passenger motor vehicles (duty rate—2.5%). Volkswagen would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The component sourced from abroad is gas springs (duty rate—3.9%).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is December 30, 2019.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via <a href="https://www.trade.gov/ftz">www.trade.gov/ftz</a>.

For further information, contact Christopher Wedderburn at Chris.Wedderburn@trade.gov or (202) 482–1963.

Dated: November 13, 2019.

## Andrew McGilvray,

Executive Secretary.

# Polyester Textured Yarn From India: Final Determination of Sales at Less Than Fair Value

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (Commerce) determines that imports of polyester textured yarn (yarn) from India are being, or are likely to be, sold in the United States at less than fair value (LTFV).

**DATES:** Applicable November 19, 2019. **FOR FURTHER INFORMATION CONTACT:** Katherine Johnson or Michael Bowen,

AD/CVD Operations, Office VIII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–4929 or (202) 482–0768, respectively.

## SUPPLEMENTARY INFORMATION:

## **Background**

On July 1, 2019, Commerce published in the **Federal Register** its preliminary affirmative determination in the LTFV investigation of yarn from India and invited parties to comment. A summary of the events that occurred since Commerce published the *Preliminary Determination* may be found in the Issues and Decision Memorandum.<sup>2</sup>

The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov and is available to all parties in the Central Records Unit, Room B8024 of the main Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at http://enforcement.trade.gov/ frn. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

## **Period of Investigation**

The period of investigation is October 1, 2017 through September 30, 2018.

# Scope of the Investigation

The product covered by this investigation is polyester textured yarn from India. For a complete description of the scope of this investigation, *see* Appendix I.

#### **Scope Comments**

During the course of this investigation and the concurrent countervailing duty (CVD) investigation of yarn from India, and concurrent antidumping duty (AD) and CVD investigations of yarn from the People's Republic of China, certain

interested parties commented on the scope of the investigations as it appeared in the *Initiation Notice*.<sup>3</sup> Commerce addressed these comments in the Preliminary Determination, wherein Commerce preliminarily modified the scope language as it appeared in the *Initiation Notice* to exclude bulk continuous filament yarn.4 No interested parties commented on the preliminary exclusion of bulk continuous filament yarn. Thus, we have made no changes to the scope language from the *Preliminary* Determination with regard to bulk continuous filament yarn.

In the Preliminary Determination, we also noted that on May 2, 2019, the petitioners 5 requested that Commerce include an additional Harmonized Tariff Schedule of the United States (HTSUS) subheading in the scope language. We stated our intent to address this request in the final determinations of this and the above-referenced concurrent investigations. Specifically, the petitioners requested that Commerce add HTSUS 5402.52.00 covering twisted varn to the scope of the investigations.<sup>7</sup> As no interested parties rebutted the petitioners' request to add this HTSUS subheading, and Commerce finds the petitioners' request is reasonable, we have revised the scope of the investigations to include HTSUS 5402.52.00. See Appendix I for the final scope of the investigation.

# **Analysis of Comments Received**

All issues raised in the case and rebuttal briefs that were submitted by parties in this investigation are addressed in the Issues and Decision Memorandum. A list of the issues addressed in the Issues and Decision Memorandum is attached to this notice at Appendix II.

## Verification

As provided for in section 782(i) of the Tariff Act of 1930, as amended (the Act), in July and August 2019, we conducted verification of the sales and cost information submitted by Reliance Industries Limited (Reliance) for use in our final determination. We used standard verification procedures, including an examination of relevant
