

the 2019 SAS and collected electronically through the Census Bureau's Centurion online reporting system. Respondents will be sent an initial letter with instructions detailing how to log into the instrument and report their information. These letters will be addressed to the location's CNO. Before mailing, the Census Bureau will attempt to identify the CNO at each location. In instances where the CNO is not identifiable, the letter will be addressed to the hospital's administrative office with attention to the CNO. Collection is scheduled to begin in September 2020 and end in April 2021.

Paperwork Reduction Act

Notwithstanding, any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a currently valid OMB control number. In accordance with the PRA, 44 United States Code, Chapter 45, the Census Bureau will submit a request for approval to the OMB for approval of the MOPS-HP.

Foreign-Trade Zones Board

[B-07-2020]

Foreign-Trade Zone (FTZ) 52—Hauppauge, New York, Notification of Proposed Production Activity, Regent Tek Industries, Inc. (Road Marking Material), Shirley, New York

Regent Tek Industries, Inc. (Regent Tek), submitted a notification of proposed production activity to the FTZ Board for its facility in Shirley, New York. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on January 31, 2020.

Regent Tek's facility is located within FTZ 52. The facility is used for the production of thermoplastic road marking material. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and

subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Regent Tek from customs duty payments on the foreign-status components used in export production. On its domestic sales, for the foreign-status materials/components noted below, Regent Tek would be able to choose the duty rates during customs entry procedures that apply to thermoplastic granular road marking material (duty rate 3.2%). Regent Tek would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The components and materials sourced from abroad include: Titanium dioxide (TiO₂); glass beads (M247 Type 1); resins—pentaerythritol ester of rosin and alkyd gum-based resin; and, stearic acid—saturated fatty acid (duty rate ranges from 2.1c/kg + 3.8% to 6%). The request indicates that certain materials/components are subject to special duties under Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is March 23, 2020.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via www.trade.gov/ftz.

For further information, contact Christopher Wedderburn at Chris.Wedderburn@trade.gov or (202) 482-1963.

Dated: February 7, 2020.
