Abstract: This is a renewal information collection request (ICR) that will cover the paperwork activities associated with the U.S. Environmental Protection Agency's program to encourage the use of Integrated Pest Management (IPM) as the preferred approach to pest control in the nation's schools. IPM is a smart, sensible, and sustainable approach to pest control that emphasizes the remediation of pest conducive conditions. IPM combines a variety of pest management practices to provide effective, economical pest control with the least possible hazard to people, property, and the environment. These practices involve exclusion of pests, maintenance of sanitation, and the judicious use of pesticides.

The EPA's vision is that all students in the U.S. will experience the benefits provided by an IPM program in their school district. The Agency's IPM implementation efforts are aimed at kindergarten through 12th grade public and Tribal schools. The Agency intends to use the information collected through this ICR to encourage school districts to implement IPM programs and to recognize those that have attained a notable level of success. Since IPM implementation occurs along a continuum, the School IPM (SIPM) Awards program will recognize each milestone a school district must take to begin, grow, and sustain an IPM program.

This program has five award categories—Great Start, Leadership, Excellence, Sustained Excellence, and Connector. The first four categories are stepwise levels that are reflective of the effort, experience, and, ultimately, success that results from implementing EPA-recommended IPM tactics that protect human health and the environment. Schools with pest infestations are not only exposed to potential harm to health and property, but also to stigmatization. The SIPM Awards program will give districts across the nation the opportunity to receive positive reinforcement through public recognition of their efforts in implementing pest prevention and management strategies.

Respondents/Affected Entities: Entities potentially affected by this ICR are school districts or entities that represent them. North American Industry Classification System (NAICS) Codes for these respondents include: 6111—Elementary and Secondary Schools, 6244—Child Day Care Services, 56172—Janitorial Services,

56173—Landscaping Services, 56171—Exterminating and Pest Control Services, and 5617—Services to Buildings and Dwellings.

Respondent's obligation to respond: Voluntary, required to obtain or retain a benefit.

Estimated total number of potential respondents: 53.

Frequency of response: On occasion.

Estimated total burden: 911 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Estimated total costs: \$ 85,404 (per year) includes \$0 in annualized capital or operation & maintenance costs.

Changes in the estimates: There is an increase of 52 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. EPA's costs associated with information collection increased for both the respondents and the Agency due to the increases in the wage rates since its creation. We note that in the original ICR, the benefits (46.3 percent of the unloaded wage) were mistakenly excluded from the calculation of the fully loaded wages for the Agency, resulting in the latter being much lower than the actual values. This led to the cost increase for the Agency disproportionately larger than the cost increase for the respondents. This change is an adjustment.

Director, Regulatory Support Division.

Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission (“Commission”) has accepted, subject to final approval, an agreement containing a consent order from Miniclip S.A. (“Respondent”). The proposed consent order (“proposed order”) has been placed on the public record for thirty (30) days for receipt of comments from interested persons. Comments received during this period will become part of the public record. After thirty (30) days, the Commission will again review the agreement and the comments received, and will decide whether it should withdraw from the agreement and take appropriate action or make final the agreement’s proposed order.

Respondent develops, publishes, and distributes mobile and online digital games. As of August 2019, Respondent had approximately 100 applications (“apps”) available for download through Apple’s App Store and Google Play. Consumers can also play online games via Respondent’s website, www.miniclip.com, and through Facebook.

This matter concerns alleged false or misleading representations that Respondent made concerning its status in a Children’s Online Privacy Protection Act of 1998 (“COPPA”) safe harbor program. Congress enacted COPPA to protect the safety and privacy of children online by prohibiting the unauthorized or unnecessary collection of children’s personal information online by operators of Internet Websites and online services. COPPA directed the Commission to promulgate a rule implementing COPPA. The Commission promulgated the COPPA Rule on November 3, 1999, and the COPPA Rule went into effect on April 21, 2000. The Commission promulgated revisions to the Rule that went into effect on July 1, 2013. COPPA includes a provision enabling industry groups or others to submit for Commission approval self-regulatory safe harbor programs that

implement the protections of the Commission's final Rule.

In 2001, the Commission approved the Children's Advertising Review Unit ("CARU") as a COPPA safe harbor program. In July 2009, Respondent joined CARU's COPPA safe harbor program. Thereafter, Respondent began disseminating statements regarding its participation in CARU's COPPA safe harbor program. Respondent remained a member of CARU's COPPA Safe Harbor Program until July 6, 2015, when CARU terminated Respondent's participation in the program. After CARU terminated Respondent from its safe harbor program, Respondent continued to make claims that it participated in the program.

The Commission's proposed one-count complaint alleges that Respondent violated Section 5(a) of the Federal Trade Commission Act. Specifically, the proposed complaint alleges that Respondent engaged in a deceptive act or practice by falsely representing that it was a current participant in the CARU COPPA safe harbor program when it was not.

Part I of the proposed order prohibits Respondent from making misrepresentations about its membership in any privacy or security program sponsored by the government or any other self-regulatory or standard-setting organization, including, but not limited to, the CARU COPPA safe harbor.

Parts II through V of the proposed order are reporting and compliance provisions. Part II requires acknowledgement of the order and dissemination of the order now and in the future to persons with responsibilities relating to the subject matter of the order. Part III ensures notification to the FTC of changes in corporate status and mandates that the company submit an initial compliance report to the FTC. Part IV requires the company to create certain documents relating to its compliance with the order for ten (10) years and to retain those documents for a five-year period. Part V mandates that the company make available to the FTC information or subsequent compliance reports, as requested.

Part VI is a provision "sun-setting" the order after twenty (20) years, with certain exceptions.

The purpose of this analysis is to aid public comment on the proposed order. It is not intended to constitute an official interpretation of the complaint or proposed order, or to modify in any way the proposed order's terms.

By direction of the Commission.

April J. Tabor,

Acting Secretary.
