BILLING CODE P

DEPARTMENT OF COMMERCE

Bureau of Industry and Security

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Additional Protocol to the U.S.—International Atomic Energy Agency Safeguards

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Notice of Information Collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before October 16, 2020.

ADDRESSES: Interested persons are invited to submit comments by email to Mark Crace, IC Liaison, Bureau of Industry and Security, at mark.crace@bis.doc.gov or to PRAComments@doc.gov. Please reference OMB Control Number 0694-0135 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Mark Crace, IC Liaison, Bureau of Industry and Security, phone 202-482-8093 or by email at mark.crace@bis.doc.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Additional Protocol requires the United States to submit declaration forms to the International Atomic Energy Agency (IAEA) on a number of commercial nuclear and nuclear-related items, materials, and activities that may be used for peaceful nuclear purposes, but also would be necessary elements for a nuclear weapons program. These forms provides the IAEA with information about additional aspects of the U.S. commercial nuclear fuel cycle, including: Mining and milling of nuclear materials; buildings on sites of facilities selected by the IAEA from the U.S. Eligible Facilities List; nuclear-related equipment manufacturing, assembly, or construction; import and export of nuclear and nuclear-related items and materials; and research and development. The Protocol also expands IAEA access to locations where these activities occur in order to verify the form data.

II. Method of Collection

Submitted electronically or in paper form.

III. Data

OMB Control Number: 0694-0135.
Form Number(s): AP-1 through AP-17, and AP-A through AP-Q.

Type of Review: Regular submission, extension of a current information collection.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 500.

Estimated Time per Response: 23 minutes to 6 hours.

Estimated Total Annual Burden Hours: 920.

Estimated Total Annual Cost to Public: 5,400.

Respondent's Obligation: Mandatory.
Legal Authority: Additional Protocol Implementation Act (Title II of Pub. L. 109-401), Executive Order (E.O.) 13458.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

International Trade Administration

Notice of Request for Applicants for Appointment to the United States-Mexico Energy Business Council

June 24, 2020.

AGENCY: International Trade Administration, Department of Commerce.

ACTION: Notice.

SUMMARY: In 2016, agencies of the Governments of the United States and Mexico established the U.S.-Mexico Energy Business Council (the

“Council”). This notice announces 10 membership opportunities for appointment as U.S. representatives to the U.S. Section of the Council for a term beginning in October 2020 and ending in October 2022.

DATES: All applications must be received by the Office of North America by 5:00 p.m. Eastern Standard Time (EST) on September 16, 2020.

Applications received after that date will be considered only if vacancies have not already been filled.

ADDRESSES: Please submit applications to David Olsen, International Trade Specialist, Office of North America, U.S. Department of Commerce by email only at David.Olsen@trade.gov.

FOR FURTHER INFORMATION CONTACT:

David Olsen, Office of North America, U.S. Department of Commerce, telephone: (202) 809-7233, email: David.Olsen@trade.gov.

SUPPLEMENTARY INFORMATION:

Background

The U.S. Department of Commerce, the U.S. Department of Energy, the Ministry of Economy of the United Mexican States, and the Ministry of Energy of the United Mexican States established the Council in March 2016. The objective of the Council is to bring together representatives of the respective energy industries of the United States and Mexico to discuss issues of mutual interest, particularly ways to strengthen the economic and commercial ties between energy industries in the two countries, and communicate actionable, non-binding recommendations to the U.S. and Mexican Governments. Since 2016, Council members have participated in public-private sector dialogue to highlight the importance of the United States-Mexico energy relationship, share priorities for the energy sector, and identify opportunities for collaboration. As part of this dialogue, Council members have drafted binational recommendations on topics of mutual interest, including energy security, cross-border energy projects, power planning and integration, workforce development, and the U.S.-Mexico-Canada Agreement (USMCA). For more information, please consult the Terms of Reference of the Council (copy and paste link into browser): [https://legacy.trade.gov/hled/documents/Signed%20US-MEX%20Energy%20Business%20Council%20Terms%20\(May%202016%20-%20English\).pdf](https://legacy.trade.gov/hled/documents/Signed%20US-MEX%20Energy%20Business%20Council%20Terms%20(May%202016%20-%20English).pdf).

Participation Requirements

The Department of Commerce is seeking applicants for membership on

the U.S. Section of the Council. Each applicant must be a senior representative (e.g., Chief Executive Officer, Vice President, Regional Manager, Senior Director, or holder of a similar position) of a U.S.-owned or controlled individual company, trade association, or private sector organization that is incorporated in and has its main headquarters in the United States and whose activities include a focus on the manufacture, production, commercialization, and/or trade in goods and services for the energy industry in Mexico. Each applicant must also be a U.S. citizen, or otherwise legally authorized to work in the United States and be able to travel to Mexico or locations in the United States to attend Council meetings, as well as U.S. Section and Committee meetings. In addition, the applicant may not be a registered foreign agent under the Foreign Agents Registration Act of 1938, as amended. Applications for membership in the U.S. Section by eligible individuals, including applications by current U.S. Section members for reappointment, will be evaluated on the following criteria:

- A demonstrated strong interest in Mexico and its economic development, including as applicable either through exports or investment.
- The ability to offer to the work of the Council a broad perspective and business experience specific to the energy industry.
- The ability to address cross-cutting issues that affect the entity's entire energy industry sub-sector, including the oil and gas, renewable energy, electricity, nuclear energy, and energy efficiency.
- The ability to dedicate organizational resources to initiate and be responsible for activities in which the Council will be active.

U.S. Section members will also be selected on the basis of who is best qualified to carry out the objectives of the Council to:

- Promote increased two-way investment in the energy industry;
- Promote two-way trade in goods and services produced by and used in the energy industry;
- Promote the development of binational value chains in the production of goods and services in the energy sector;
- Promote the development of modern energy infrastructure and bolster energy efficiency and security;
- Foster an enabling environment for the rapid development, deployment, and integration of new energy industry technologies—including

- clean renewable energy technologies—into the marketplace;
- Improve competitiveness through innovation and entrepreneurship in the energy industry, to include the promotion of technology exchanges and research partnerships; and
- Partner in skills development to create solutions in training and education to address evolving energy industry workforce needs.

In selecting members of the U.S. Section, the U.S. Government selection committee, composed of representatives from the Department of Commerce and the Department of Energy, will attempt to ensure that the Section represents a cross-section of small, medium-sized, and large firms.

Fees and Expenses

U.S. Section members will receive no compensation for their participation in Council-related activities. They shall not be considered as special government employees. Individual U.S. Section members will be responsible for all travel and related expenses associated with their participation in the Council, including attendance at Committee and Section meetings. Only appointed U.S. Section members may participate in Council meetings; substitutes and alternates may not be designated. U.S. Section members are expected to serve for two-year terms but may be reappointed.

Timeframe for Recruitment and Application

To apply for membership in the U.S. Section, please submit the following information to David Olsen, International Trade Specialist, by email at David.Olsen@trade.gov by September 16, 2020:

- Name(s) and title(s) of the applicant;
- Name and address of the headquarters of the entity that employs the applicant;
- Location of incorporation or establishment;
- Size of the represented entity, in terms of annual sales and number of employees;
- As applicable, the size of the entity's export trade, investment, and nature of operations or interest in Mexico; and
- A brief statement of why the applicant should be considered, including information about the applicant's ability to initiate and be responsible for activities in which the Council will be active.

All applicants will be notified of whether they have been selected once the application window closes and

selection of U.S. Section members has been made. Applications received after September 16, 2020 will be considered only if vacancies have not already been filled.

Authority: The Act of February 14, 1903, as amended (15 U.S.C. 1512 *et seq.*; 15 U.S.C. 171 *et seq.*), to foster, promote, and develop the foreign and domestic commerce of the United States. Section 2 of Reorganization Plan no. 3 of 1979, which assigns to the Secretary of Commerce responsibility for major nonagricultural international trade functions of the United States, including export development.

Dated: August 4, 2020.

David Olsen,
International Trade Specialist, Office of North America.

[C-570-011]

Crystalline Silicon Photovoltaic Products From the People's Republic of China: Notice of Court Decision Not in Harmony With Final Results of Countervailing Duty Administrative Review and Notice of Amended Final Results of Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On August 4, 2020, the United States Court of International Trade (the Court) entered final judgment sustaining the final results of remand redetermination pursuant to court order by the Department of Commerce (Commerce) pertaining to the 2014–2015 countervailing duty (CVD) administrative review of the order on crystalline silicon photovoltaic products (solar products) from the People's Republic of China (China). Commerce is notifying the public that the final judgment in this case is not in harmony with Commerce's final results in the 2014–2015 administrative review of solar products from China, and that Commerce is amending the final results.

DATES: Applicable August 14, 2020.

FOR FURTHER INFORMATION CONTACT: Caitlin Monks, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue

NW, Washington, DC 20230; telephone: (202) 482–2670.

SUPPLEMENTARY INFORMATION:

Background

On September 12, 2017, Commerce published its final results of the 2014–2015 administrative review of solar products.¹ Commerce reached affirmative determinations for mandatory respondent Changzhou Trina Solar Energy Co., Ltd. and its cross-owned affiliates (collectively, Trina Solar), as well as numerous other producers and exporters not selected for individual review. On November 30, 2018, the Court remanded aspects of the *Final Results* to Commerce for further consideration.² The Court remanded Commerce's determinations as regards to the Export Buyer's Credit Program and inclusion of Comtrade data in calculating the world market price for aluminum extrusions and solar glass.³ In its first remand redetermination, issued in April 2019,⁴ Commerce provided additional explanation and evidence for its determinations, but the Court continued to find them unsupported by substantial evidence and remanded them a second time.⁵

In its second remand redetermination, issued in February 2020,⁶ Commerce explained that, although it continues to believe that it is not possible to verify whether respondents used the Export Buyer's Credit Program without the cooperation of the Government of China (GOC), it found the program not used, under protest, to comply with the Court's order.⁷ Commerce also solicited additional information for the solar glass benchmark, and selected data from

PV Insights consistent with Commerce's preference for product-specific monthly data.⁸ For aluminum extrusions, Commerce used the more product-specific annual data from IHS exclusively rather than averaging them with less specific monthly Comtrade data, consistent with the Court's order.⁹

The Court sustained Commerce's second remand in full.¹⁰ Specifically, the Court found that Commerce's determinations regarding the Export Buyer's Credit Program, as well as the aluminum extrusions and solar glass benchmarks, complied with the options the Court provided in its remand opinion.¹¹

Timken Notice

In its decision in *Timken*,¹² as clarified by *Diamond Sawblades*,¹³ the Court of Appeals for the Federal Circuit held that, pursuant to section 516A(c) of the Tariff Act of 1930, as amended (the Act), Commerce must publish a notice of court decision that is not “in harmony” with a Commerce determination and must suspend liquidation of entries pending a “conclusive” court decision. The Court's August 4, 2020, judgment constitutes a final decision of that court that is not in harmony with Commerce's *Final Results*. This notice is published in fulfillment of the publication requirements of *Timken*. Accordingly, Commerce will continue suspension of liquidation of subject merchandise pending expiration of the period of appeal or, if appealed, pending a final and conclusive court decision.

Amended Final Results

Because there is now a final court decision, Commerce is amending the 2017 *Final Results* with respect to Trina Solar and all other producers and exporters subject to this review. The revised total subsidy rates for these companies for the period June 10, 2014 through December 31, 2015 are as follows:¹⁴
