[Docket No. CP19–193–000]

Columbia Gulf Transmission, LLC; Notice of Request for Extension of Time

Take notice that on July 7, 2020, Columbia Gulf Transmission, LLC (Columbia Gulf) requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time, until November 15, 2021, in order to place the replacement facilities of the Mainline 100 and Mainline 200 Replacement Project (Project) into service, in Menifee and Montgomery Counties, Kentucky, as authorized as part of Columbia Gulf's Project in the November 15, 2019 Order Granting Certificate and Approving Abandonment¹ (November 15 Order). The November 15 Order required Columbia Gulf to complete construction and make the facilities available for service within one year of the order date. Columbia Gulf states that, due to increased population density in the area along certain discrete sections of Mainline 100 and Mainline 200,

Columbia Gulf is required, pursuant to Part 192 of the U.S. Department of Transportation (DOT) regulations,² to remediate the pipelines to allow continued operation at the current maximum allowable operating pressures (MAOP). Columbia Gulf states that, as provided by 49 CFR 190.341 Special Permit, an operator of a pipeline may submit an application for a special permit, and provided that certain conditions are met, the DOT may waive compliance from the regulations for specific natural gas transmission pipeline segments. If granted, the special permit allows the operator to continue to operate each special permit segment at its current MAOP without first performing remediation work.

Columbia Gulf states that, on October 15, 2019, Columbia Gulf applied for a special permit under the circumstances that the class location changed due to development usage of land near the pipeline. Columbia Gulf anticipates that a determination from DOT on its special permit application may not be received until after the November 15, 2020 in-service deadline stipulated in the November 15 Order. If the Commission grants Columbia Gulf's request for an extension of time, Columbia would take one of the following actions based on whether it receives a special permit from DOT. If Columbia Gulf received the special permit, Columbia Gulf would submit a motion to vacate the authorization granted in the November 15 Order. If Columbia Gulf doesn't obtain the special permit, Columbia Gulf would notify the Commission of its intent to begin construction of the Project and submit a revision to its Implementation Plan reflecting an updated construction schedule.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Columbia Gulf's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).³

As a matter of practice, the Commission itself generally acts on

² 49 CFR 192.611 (2020).

³ Only motions to intervene from entities that were party to the underlying proceeding will be accepted. *Algonquin Gas Transmission, LLC*, 170 FERC ¶ 61,144, at P 39 (2020).

requests for extensions of time to complete construction for Natural Gas Act facilities when such requests are contested before order issuance. For those extension requests that are contested,⁴ the Commission will aim to issue an order acting on the request within 45 days.⁵ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁶ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act.⁷ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.⁸ The OEP Director, or his or her designee, will act on all of those extension requests that are uncontested.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1202; FRS 16928]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before September 18,

2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.
