SUPPLEMENTARY INFORMATION: On November 26, 2019, the Department of Health and Human Services, National Institutes of Health published a Notice in the **Federal Register** on pages 65165-65166 (84 FR 65165), seeking nominations of individuals to serve as non-federal public members on the Interagency Autism Coordinating Committee (IACC). The closing date for nominations ended on January 17, 2020. The purpose of this notice is to extend acceptance of nominations until February 21, 2020. As specified in the Combating Autism Act of 2006 (Pub. L. 109-416) and reauthorized by the Autism Collaboration, Accountability,

Research, Education and Support Act of 2019 (Pub. L. 116-60). The Office of the Secretary has directed the Office of Autism Research Coordination (OARC) of the National Institute of Mental Health, National Institutes of Health to assist the Department in conducting an open nomination process. Appointments of non-federal public members to the committee shall be made by the Secretary of Health and Human Services.

Eligibility Requirements

Nominations of new non-federal public members are encouraged, and current non-federal public members may also be re-nominated to continue to serve if they have served only one term previously, in accordance with the provisions of the Autism CARES Act of 2019. Self-nominations and nominations of other individuals are both permitted. Only one nomination per individual is required. Multiple nominations of the same individual will not increase likelihood of selection. The Secretary may select non-federal public members from the pool of submitted nominations and other sources as needed to meet statutory requirements and to form a balanced committee that represents the diversity within the autism spectrum disorder (ASD) community.

Those eligible for nomination include individuals on the autism spectrum, parents or guardians of individuals with ASD, leaders or representatives of major ASD research, advocacy and service organizations, healthcare and service providers, educators, researchers and other individuals with professional or personal experience with ASD. Nominations of individuals with a variety of disability and support needs, individuals from all U.S. states and territories, and individuals representing diverse populations within the autism community, including all genders and gender identities, cultural, ethnic and racial groups are encouraged. Requests for reasonable accommodation to enable participation on the Committee should be indicated in the nomination submission.

IACC non-federal public members are appointed as special government employees and are required to be U.S. citizens. To serve, they must submit an annual confidential financial disclosure report used to determine conflicts of interest as well as a foreign activities questionnaire. Prohibited foreign activities include holding a position or title with a foreign governmental entity (including certain universities), and from receiving compensation and certain gifts from a foreign government.
