SUPPLEMENTARY INFORMATION:

Background

The Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et*

seq.), prohibits certain activities with endangered and threatened species unless authorized by a Federal permit. The ESA and our implementing regulations in part 17 of title 50 of the Code of Federal Regulations (CFR) provide for the issuance of such permits and require that we invite public comment before issuing permits for activities involving endangered species.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

**Migratory Birds; Double-Crested
Cormorant Increased Take Limits for
Depredation Permits in the Central and
Eastern United States**

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice.

SUMMARY: In November 2017, the U.S. Fish and Wildlife Service, working in collaboration with the U.S. Department of Agriculture's Wildlife Services, completed an environmental assessment (EA) and finding of no significant impact for the issuance of depredation permits for double-crested cormorants.
