

I. Abstract

Contractors performing research and development are required by statutes, NASA implementing regulations, and OMB policy to submit reports of inventions, patents, data, and copyrights, including the utilization and disposition of same. The NASA New Technology Summary Report reporting form is being used for this purpose.

II. Methods of Collection

NASA FAR Supplement clauses for patent rights and new technology encourage the contractor to use an electronic form and provide a hyperlink to the electronic New Technology Reporting System (e-NTR) site <http://invention.nasa.gov>. This website has been set up to help NASA employees and parties under NASA funding agreements (*i.e.*, contracts, grants, cooperative agreements, and subcontracts) to report new technology information directly to NASA via a secure internet connection.

SUPPLEMENTARY INFORMATION:

I. Abstract

The NASA Universal Registration and Data Management System is a comprehensive tool designed to allow learners (*i.e.*, students, educators, and awardee principal investigators) to apply to NASA STEM engagement opportunities (*e.g.*, internships, fellowships, challenges, educator professional development, experiential learning activities, etc.) in a single location. NASA personnel manage the selection of applicants and implementation of engagement opportunities within the Universal Registration and Data Management System. The information collected will be used by the NASA Office of STEM Engagement (OSTEM) in order to review applications for participation in NASA engagement opportunities. The information is reviewed by OSTEM

project and activity managers, as well as NASA mentors who would be hosting students. This information collection will consist of student-level data such as demographic information submitted as part of the application. In addition to supporting student selection, student-level data will enable NASA OSTEM to fulfill federally mandated reporting on its STEM engagement activities and report relevant demographic information as needed for Agency performance goals and success criteria (annual performance indicators).
