

department's inability to address financial needs without Federal assistance; and discuss other actions the department has taken to meet their staffing needs (e.g., state assistance programs, other grant programs, etc.).

- **Mentoring (additional consideration for Early Career Investigator Projects only):** An important part of Early Career Investigator projects is the integration of mentoring for the principal investigator by experienced researchers in areas appropriate to the research project, including exposure to the fire service community as well as support for ongoing development of knowledge and skills. Mentoring is regarded as critical to the research skills development of early career principal investigators. As part of the application Appendix, the applicant should have identified the mentor(s) who have agreed to support the applicant and the expected benefit of their interactions with the researcher. A biographical sketch and letter of support from the mentor(s) were encouraged and should have been included in the Appendix materials.

Other Selection Information

Awards will be made using the results of peer-reviewed applications as the primary basis for decisions, regardless of activity. However, there are some exceptions to strictly using the peer review results. The applicant's prior AFG, SAFER, and FP&S grant management performance will also be taken into consideration when making recommendations for award. All final funding determinations will be made by the FEMA Administrator, or the Administrator's designee.

Fire departments and other eligible applicants that have received funding under the FP&S Grant Program in previous years are eligible to apply for funding in the current year. However, FEMA may take into account an applicant's performance on prior grants when making funding decisions on current applications.

Once every application in the competitive range has been through the technical evaluation phase, the applications will be ranked according to the average score awarded by the panel.

The ranking will be summarized in a Technical Report prepared by the AFG Program Office. A Grants Management Specialist will contact the applicant to discuss and/or negotiate the content of the application and SAM.gov registration before making final award decisions.
