SUPPLEMENTARY INFORMATION

Background

On August 10, 2015, Commerce published in the *Federal Register* the AD and CVD *Orders* on passenger tires from China.¹ On January 29, 2020, Commerce initiated changed circumstances reviews (CCRs) and made preliminary findings that Sailun Group, Sailun Dongying and Sailun HK were the successors-in-interest to Sailun Jinyu, Shandong Jinyu and Sailun Jinyu HK, respectively, and, as a result, these entities should be accorded the same treatment previously accorded to this company group.² We provided

interested parties the opportunity to comment on the *Preliminary Results*. No interested parties submitted case briefs. Sailun Group, Sailun Dongying, and Sailun HK submitted a letter requesting that the *Preliminary Results* be adopted as the final results.³

Scope of the Orders

The scope of these *Orders* is passenger vehicle and light truck tires. Passenger vehicle and light truck tires are new pneumatic tires, of rubber, with a passenger vehicle or light truck size designation. Tires covered by this order may be tube-type, tubeless, radial, or non-radial, and they may be intended for sale to original equipment manufacturers or the replacement market.

Subject tires have, at the time of importation, the symbol "DOT" on the sidewall, certifying that the tire conforms to applicable motor vehicle safety standards. Subject tires may also have the following prefixes or suffix in their tire size designation, which also appears on the sidewall of the tire:

Prefix designations:

P—Identifies a tire intended primarily for service on passenger cars

LT—Identifies a tire intended primarily for service on light trucks

Suffix letter designations:

LT—Identifies light truck tires for service on trucks, buses, trailers, and multipurpose passenger vehicles used in nominal highway service.

All tires with a "P" or "LT" prefix, and all tires with an "LT" suffix in their sidewall markings are covered by this investigation regardless of their intended use.

In addition, all tires that lack a "P" or "LT" prefix or suffix in their sidewall markings, as well as all tires that include any other prefix or suffix in their sidewall markings, are included in the scope, regardless of their intended use, as long as the tire is of a size that is among the numerical size designations listed in the passenger car section or light truck section of the Tire and Rim Association Year Book, as updated annually, unless the tire falls within one of the specific exclusions set out below.

Passenger vehicle and light truck tires, whether or not attached to wheels or rims, are included in the scope. However, if a subject tire is imported attached to a wheel or rim, only the tire is covered by the scope.
