

level of environmental documentation for the modified proposed action.

Background

The 1969 Lease allowed one additional year after December 2019 for retirement of NGS-KMC. Subsequent planning studies indicated 2 or more years would likely be required to complete this work. In addition, 30 years of post-closure testing, monitoring, and reporting (post-closure activities) would be required. The Lessees along with the Navajo Nation agreed to a new lease, called the Extension Lease, which would enable NGS-KMC to continue to operate through December 22, 2019, and allow up to 5 years to complete retirement activities, and allow up to an additional 30 years for implementing post-closure activities. The Extension Lease became effective on December 1, 2017, following the Department of the Interior approvals.

Reclamation and BIA-Navajo Region issued an EA and draft FONSI for public comment beginning October 5, 2017. Comments from 10 entities were received. Reclamation and BIA-Navajo Region issued final signed FONSI on November 27, and November 28, respectively. The Extension Lease and all accompanying documents were signed by then Principal Deputy Assistant Secretary for Indian Affairs on November 29, 2017. The *Final Environmental Assessment For The Navajo Generating Station Extension Lease* and the *Final Finding of No Significant Impact for the Navajo Generating Station Extension Lease* were announced to the public on November 30, 2017; therefore, the completion of the original EIS has been cancelled.

Dated: May 18, 2020.

Deputy Regional Director, Interior Region 8:
Lower Colorado Basin, Bureau of
