

Nomination packages may be submitted directly by the individual seeking nomination or by the person/organization recommending the candidate. HRSA will collect and retain nomination packages to create a pool of potential future CHACHSPT members. When a vacancy occurs, HRSA will review nomination packages and may contact nominees at that time. Nominations should be updated and resubmitted every two years for continuing consideration for CHACHSPT vacancies.

Appointments shall be made without discrimination on the basis of age, ethnicity, gender, sexual orientation, or cultural, religious, or socioeconomic status.

Individuals who are selected for appointment will be required to provide detailed information regarding their financial interests and, for example, any work they do for the federal government through research grants or contracts. Disclosure of this information is required in order for HRSA ethics officials to determine whether there is a conflict between the SGE's public duties as a member of CHACHSPT and their private interests, including an appearance of a loss of impartiality as defined by federal laws and regulations, and to identify any required remedial action needed to address the potential conflict.

Authority: CHACHSPT was established under Section 222 of the Public Health Service (PHS) Act, [42 U.S.C. 217a], as amended. CHACHSPT is governed by the provisions of the Federal Advisory Committee Act, as amended, 5 U.S.C. App., which sets forth requirements for the formation and use of advisory committees.

Maria G. Button,

SUPPLEMENTARY INFORMATION: Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Title of the Collection: Federal Evaluation of Making Proud Choices! (MPC!).

Type of Collection: Revision.

OMB No.: 0990-0452.

Abstract: The Office of Population Affairs (OPA), U.S. Department of Health and Human Services (HHS) is requesting an extension with revision of a currently approved information collection (OMB No: 0990-0452). The purpose of the revision is to complete the nine-month follow-up data collection for the Federal Evaluation of Making Proud Choices! (MPC). The evaluation is being conducted in 15 schools across four school districts nationwide and will provide information about program design, implementation, and impacts through a rigorous assessment of a highly popular teen pregnancy prevention curriculum—MPC. Clearance is requested for three years. This revision is necessary to complete the 9-month post-baseline follow up data collection after enrolling a fourth and final cohort into the study. The follow-up survey data will be used to determine program effectiveness by comparing sexual behavior outcomes, such as postponing sexual activity, and reducing or preventing sexual risk behaviors and STDs and intermediate outcomes, such as improving exposure, knowledge and attitudes between treatment (program) and control youth. The findings from these analyses of program impacts will be of interest to the general public, to policymakers, and to schools and other organizations interested in supporting a comprehensive approach to teen pregnancy prevention. The revision request also updates the burden by removing the second (15 months post baseline) survey from the data collection.

Type of Respondent: The follow-up survey will be administered to study participants, who will primarily be in 10th-12th grade at the time of the follow-up survey.

ANNUALIZED BURDEN HOUR TABLE
