

Overview of This Information Collection

1. *Type of Information Collection:* Reinstatement, with change, of a previously approved collection for which approval has expired.

2. *Title of the Form/Collection:* Annual Survey of Jails (ASJ).

3. *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* The ASJ contains one form, CJ-5, each year. The applicable component within the Department of Justice is the Bureau of Justice Statistics (BJS), in the Office of Justice Programs.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Approximately 950 jails, representing 2,924 local jails (city, county, regional, and private) will be requested to provide information for the following categories:

(a) At midyear (last weekday in the month of June), the total number of inmates confined in jail facilities and the total number of persons under jail supervision, but not confined;

(b) At midyear, inmate counts by sex, juvenile status, age group, race/Hispanic origin, probation and parole status, conviction status, severity of charge (felony or misdemeanor), and U.S. citizenship status;

(c) At midyear, the numbers of inmates held for federal authorities, state prison authorities, American Indian or Alaska Native tribal governments, and other local jails;

(d) On the weekend prior to midyear, whether the jail had a weekend program that allows offenders to serve their sentences of confinement only on weekends, and the number of program participants;

(e) Rated capacity at midyear;

(f) The date and count for the greatest number of confined inmates during the 30-day period in June;

(g) The average daily population by sex during the 12-month period from July 1 of last year to June 30 of current year;

(h) The number of new admissions into jail, and final discharges from jail, by sex during the 12-month period from July 1 of last year to June 30 of current year;

(i) The number of persons under jail supervision under various programs outside jail;

(j) At midyear, the number of staff members employed by the facility by sex and occupation (*i.e.*, correctional officers or other staff).

In addition to the above items, the 2020 and 2021 ASJ will include a special addendum on the COVID-19

epidemic with the following six questions:

(a) One-day inmate counts every month from January to May 2020 (or July to December 2020);

(b) The number of inmates that received expedited release due to COVID-19 from January 1, 2020, to June 30, 2020 (or from July 1, 2020, to December 31 2020);

(c) The number of inmates tested for COVID-19 and the number that tested positive from January 1, 2020, to June 30, 2020 (or from July 1, 2020, to December 31 2020);

(d) The number of staff tested for COVID-19 and the number that tested positive from January 1, 2020, to June 30, 2020 (or from July 1, 2020, to December 31 2020);

(e) Inmate deaths and staff deaths from COVID-19 from January 1, 2020, to June 30, 2020 (or from July 1, 2020, to December 31 2020);

(f) The number of inmates not admitted to jail due to testing positive for COVID-19 during the intake process from January 1, 2020, to June 30, 2020 (or from July 1, 2020, to December 31 2020).

The ASJ is the only national collection that tracks annual changes in the local jail population in the United States. BJS requests clearance for the 2020-22 ASJ under OMB Control Number 1121-0094. The ASJ was last approved under OMB Control Number 1121-0094 (exp. date 01/31/2019), where it was bundled with the Mortality in Correctional Institutions-Jails (MCI, formerly the Deaths in Custody Reporting Program) and Survey of Jails in Indian Country. In 2017, the ASJ was separated from the MCI-Jails and became a stand-alone collection again.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* During data collection in 2020 and 2021, 950 respondents will each take an average of 120 minutes to complete the CJ-5 form. Data quality follow-up is needed for an estimated 70% of the respondents (665) and the validation will run an average of 10 minutes for each respondent. In addition, about 60 jails will be contacted to verify facility operational status and point-of-contact information, which takes 5 minutes each on average. In total, the ASJ will incur a total burden estimate of 2,016 hours, or 127 minutes per respondent, each year in 2020 and 2021. Without the COVID-19 questions, the 2022 ASJ form will take an average of 80 minutes to complete. In total, the 2020 ASJ will incur a burden estimate of 1,383 hours, or 87 minutes per respondent.

If additional information is required, contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405A, Washington, DC 20530.

Dated: April 13, 2020.

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410-18-P

DEPARTMENT OF LABOR

Office of the Secretary

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Asbestos in Shipyards Standard

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Occupational Safety and Health Administration (OSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that agency receives on or before May 18, 2020.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of

automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT:

Frederick Licari by telephone at 202–693–8073, TTY 202–693–8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The Standard requires employers to train workers about the hazards of asbestos, to monitor worker exposure, to provide medical surveillance, and maintain accurate records of worker exposure to asbestos. These records will be used by employers, workers, and the Government to ensure that workers are not harmed by exposure to asbestos in the workplace. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on November 29, 2019 (84 FR 65849).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL–OSHA.

Title of Collection: Asbestos in Shipyards Standard.

OMB Control Number: 1218–0195.

Affected Public: Private Sector: Business or other for-profits.

Total Estimated Number of Respondents: 585.

Total Estimated Number of Responses: 3,583.

Total Estimated Annual Time Burden: 1,237 hours.

Total Estimated Annual Other Costs Burden: \$ 44,578.

Authority: 44 U.S.C. 3507(a)(1)(D).

Dated: April 12, 2020.

Frederick Licari,

Departmental Clearance Officer.

SUPPLEMENTARY INFORMATION: The standard requires employers to monitor employee exposure to beryllium and beryllium compounds, to establish and implement a written control plan, to conduct medical surveillance, to provide personal protective equipment, to train workers about the hazards faced working in and around beryllium, and

to establish and maintain accurate records of worker exposure to beryllium and beryllium compounds. These records are used by employers, workers, physicians, and the Government to ensure that workers are not harmed by exposure to beryllium. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on February 3, 2020 (85 FR 5996).
