

- complement their academic research training
2. To allow graduate students to pursue activities aimed at acquiring professional development experience that will enhance their preparation for multiple career pathways after graduation
 3. To encourage the participation of graduate students from groups that have traditionally been underrepresented and underserved in the STEM enterprise: Women, persons with disabilities, African Americans/Blacks, Hispanic Americans, American Indian, Alaska Natives

In order to support the agency's mission and continue meeting the program's goals, we are asking the graduate students who participated in the INTERN program to report the following information:

- *Logistics of the Internship*
 - Start and end date
 - Principal Investigator supporting the internship
 - Host organization
 - Host mentor
- *Internship Experience*
 - Hours worked
 - Job Training
 - Interaction with host mentor
 - Location of the host organization
 - Work environment
 - Company culture
 - Project scope
 - Overall satisfaction
- *Industry Best Practices & Skills Development*
 - Introducing industry best practices to academic environment
 - Forthcoming Publications resulting from the internship
 - Experiential learning and professional preparation
- *Post-graduate/Career Plans*
 - General career direction after graduation
 - Helpfulness of the internship experience in making career choices
 - Likelihood of working at the host organization or similar organizations

Since the agency will not be able to receive feedback from students by way of annual reports, being able to collect this information will help the managing Program Directors to assess whether the INTERN program helps participants in terms of workforce development, career decisions, and professional preparation, thereby ensuring the program goals are met. In addition, these data will also allow NSF to evaluate the intellectual merit of the program, its broader impact in developing the STEM workforce and its potential to enhance the participation of underrepresented and

underserved STEM communities in such traineeships. Finally, in compliance with the Evidence Act of 2019, information collected will be used in satisfying congressional requests, responding to queries from the public, informing the NSF's external Committees of Visitors who serve to evaluate the foundation, working with the NSF's Office of the Inspector General, and supporting the agency's policymaking and internal evaluation and assessment needs.

Information collected in this survey will include the name of the participants, their affiliated organizations, email addresses, and home states. These personal identifiable information (PII) are collected primarily for record tracking and organizing. In addition, questions pertaining to participants' gender, race, ethnicity, and disability status will also be asked but those questions will be marked as voluntary. These PII data will be accessed only by the managing Program Directors, NSF senior management, and supporting staff conducting analyses using the data as authorized by NSF. Any public reporting of data will be in aggregate form, and any personal identifiers will be removed.

Use of the Information: The information collected is primarily for program assessment and agency internal evaluation.

Estimate burden on the public: Estimated 15 minutes per survey for 300 participants, for a total of 75 hours per year.

Respondents: Graduate students who participate in the INTERN program.

Estimated number of respondents: 300.

Average Time per Reporting: 15 minutes.

Frequency: Each participant will only be asked to submit the survey once.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Please submit one copy of your comments by only one method. All

submissions received must include the agency name and collection name identified above for this information collection. Commenters are strongly encouraged to transmit their comments electronically via email. Comments, including any personal information provided become a matter of public record. They will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request.

Dated: June 19, 2020.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.
