SUMMARY: As a result of this sunset review, the Department of Commerce (Commerce) finds that revocation of the antidumping duty (AD) order on tetrahydrofurfuryl alcohol (THFA) from the People's Republic of China (China) would be likely to lead to the continuation or recurrence of dumping at the levels indicated in the "Final Results of Review" section of this notice.

DATES: Applicable July 8, 2020.

SUPPLEMENTARY INFORMATION:

Background

On March 2, 2020, Commerce published the notice of initiation of the third sunset review of the *Order*¹ on tetrahydrofurfuryl alcohol from China, pursuant to section 751(c)(2) of the Tariff Act of 1930, as amended (the Act).² On March 20, 2020, Commerce received a notice of intent to participate from Penn A Kem LLC (formerly, Penn Specialty Chemicals), a domestic interested party, within the deadline specified in 19 CFR 351.218(d)(1)(i).³

On March 30, 2020, Commerce received a complete substantive response from the domestic interested party within the 30-day deadline specified in 19 CFR 351.218(d)(3).⁴ No

respondent interested party submitted a substantive response within the 50-day deadline. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce is conducting an expedited (120-day) sunset review of the *Order*.

Scope of the Order

The product covered by this *Order* is tetrahydrofurfuryl alcohol (THFA) from China; a primary alcohol, THFA is a clear, water white to pale yellow liquid. THFA is a member of the heterocyclic compounds known as furans and is miscible with water and soluble in many common organic solvents. THFA is currently classifiable in the Harmonized Tariff Schedules of the United States (HTSUS) under subheading 2932.13.00.00. Although the HTSUS subheadings are provided for convenience and for customs purposes, Commerce's written description of the merchandise subject to the *Order* is dispositive.

Analysis of Comments Received

All issues raised in this sunset review are addressed in the accompanying Issues and Decision Memorandum, which is hereby adopted by this notice.⁵ The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. A list of topics discussed in the Issues and Decision Memorandum is included as an appendix to this notice. A complete version of the Issues and Decision Memorandum can be accessed at <http://enforcement.trade.gov/frn/>. The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Final Results of Review

Pursuant to sections 751(c)(1) and 752(c)(1) and (3) of the Act, Commerce determines that revocation of the antidumping duty order on THFA from China would be likely to lead to the continuation or recurrence of dumping, and that the magnitude of the margin likely to prevail is up to 136.86 percent.

Electrolytic Manganese Dioxide From the People's Republic of China: Continuation of Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (Commerce) and the International Trade Commission (ITC) that revocation of the antidumping duty (AD) order on electrolytic manganese dioxide from the People's Republic of China (China) would likely lead to continuation or recurrence of dumping

and material injury to an industry in the United States, Commerce is publishing a notice of continuation of the AD order.

DATES: Applicable July 8, 2020.

FOR FURTHER INFORMATION CONTACT:

Thomas Hanna or Howard Smith, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-0835 or (202) 482-5193, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 7, 2008, Commerce published in the **Federal Register** the AD order on electrolytic manganese dioxide from China.¹ On December 2, 2019, the ITC instituted and Commerce initiated the second sunset review of the *Order* pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² Commerce conducted this sunset review on an expedited basis, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2) because it received a complete timely and adequate notice of intent to participate in the sunset review and substantive response from domestic interested parties³ but no substantive responses from respondent interested parties. As a result of its review, Commerce determined pursuant to sections 751(c)(1) and 752(c) of the Act, that revocation of the *Order* would likely lead to continuation or recurrence of dumping. Commerce also notified the ITC of the magnitude of the dumping margins likely to prevail should the *Order* be revoked.⁴ On June 25, 2020, the ITC published its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the *Order* would be likely to lead to continuation or recurrence of material injury to an

industry in the United States within a reasonably foreseeable time.⁵

Scope of the Order

The merchandise covered by this *Order* includes all manganese dioxide (MnO₂) that has been manufactured in an electrolysis process, whether in powder, chip, or plate form. Excluded from the scope are natural manganese dioxide (NMD) and chemical manganese dioxide (CMD). The merchandise subject to this *Order* is classified in the Harmonized Tariff Schedule of the United States (HTSUS) at subheading 2820.10.00.00. While the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of this *Order* is dispositive.

Continuation of the Order

As a result of the determinations by Commerce and the ITC that revocation of the *Order* would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act and 19 CFR 351.218(a), Commerce hereby orders the continuation of the AD order on electrolytic manganese dioxide from China. U.S. Customs and Border Protection will continue to collect AD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of the *Order* will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act and 19 CFR 351.218(c)(2), Commerce intends to initiate the next sunset review of the *Order* not later than 30 days prior to the fifth anniversary of the effective date of continuation.

Notification to Interested Parties

This five-year sunset review and this notice are in accordance with sections 751(c) and 751(d)(2) of the Act and this notice is published pursuant to section 777(i)(1) of the Act and 19 CFR 351.218(f)(4).

Dated: June 30, 2020.
