Exemption

I. Background

Entergy Nuclear Operations, Inc. (the licensee) is the holder of Renewed Facility Operating License Nos. DPR-26 and DPR-64 for Indian Point Nuclear Generating Units Nos. 2 and 3, respectively (Indian Point 2 and 3). The licenses provide, among other things, that the facility is subject to all rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (NRC or the Commission), now or hereafter in effect. The Indian Point 2 and 3 facility consists of two pressurized-water reactors located in Buchanan, New York.

II. Request/Action

By letter dated April 13, 2020, as supplemented by letter dated April 16, 2020 (Agencywide Documents Access and Management System (ADAMS) Accession Nos. ML20104C121 and ML20107J551, respectively), the licensee requested a temporary exemption from Title 10 of the *Code of Federal Regulations* (10 CFR) Part 50, Appendix R, Section III.H, which requires (among other things) that the qualifications of fire brigade members include an annual physical examination to determine their ability to perform strenuous firefighting activities. Due to the Coronavirus Disease 2019 (COVID-19) Public Health Emergency (PHE) currently affecting the United States, and the state of emergency declared by the State of New York on March 7, 2020, the licensee has implemented pandemic planning strategies that include isolation activities and is requesting a temporary exemption from Appendix R, Section III.H, to extend the due dates for fire brigade members to have an annual physical examination in order to protect required site fire brigade personnel in response to the COVID-19 PHE.
