SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: The Outcomes Evaluation of the Choice Neighborhoods Program.

OMB Approval Number: Pending.

Type of Request: New collection.

Form Number: N/A.

Description of the need for the information and proposed use: This request is for the collection of information for an outcomes evaluation of the Choice Neighborhoods Program (Choice). Choice leverages significant public and private dollars to support locally driven strategies that address struggling neighborhoods with distressed public or HUD-assisted housing through a comprehensive approach to neighborhood transformation; local leaders, residents, and stakeholders come together to create and implement a plan that revitalizes distressed HUD housing and addresses the challenges in the surrounding neighborhood. Launched in 2010, Choice provides direct investments through competitive grants targeted to neighborhoods marked by high rates of poverty with distressed public or HUD-assisted housing. Today, Choice remains one of HUD's primary tools to support planning and implementation efforts to catalyze redevelopment efforts in cities across the nation.

Under contract with HUD's Office of Policy Development and Research, the Urban Institute (Urban) is conducting an evaluation of Choice, focusing on the neighborhoods that received grants in 2011 and 2013: Quincy Corridor neighborhood in Boston, Massachusetts; Woodlawn neighborhood in Chicago, Illinois; Iberville/Tremé neighborhood in New Orleans, Louisiana; Eastern Bayview neighborhood in San Francisco, California; Yesler neighborhood in Seattle, Washington; Near East Side neighborhood in Columbus, Ohio; South Norwalk neighborhood in Norwalk, Connecticut; North Central Philadelphia neighborhood in Philadelphia, Pennsylvania; and Larimer/East Liberty neighborhood in Pittsburgh, Pennsylvania. The overarching goal of the current evaluation is to understand the impact of the Choice program and the investment it brings, with an emphasis on understanding the first cohort of grantees, funded in 2011 and four additional grantees from the third cohort of grantees, funded in 2013.

The evaluation will use qualitative and quantitative methods to answer the following overarching research question: Whether public and private dollars were successfully leveraged to (1) replace distressed public and
