Authority: 44 U.S.C. 3506(c)(2)(A).

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

This information collection is authorized under the National Apprenticeship Act (29 U.S.C. 50). This data collection includes two reports for Standards Recognition Entities (SREs): (1) A program report which is required within 30 days of recognizing a new program or changing the status of a current program; and (2) a performance report which is required on an annual basis for each Industry-Recognized Apprenticeship Program (IRAP) they recognize. The information collected in these reports is aligned with the amendments to 29 CFR part 29, as set forth in subpart B. Pursuant to § 29.22(h), SREs are required to report data that will reflect the outcomes of the IRAPs it has recognized. Section 29.22(h) also requires SREs to make publicly available certain data about IRAPs and performance outcomes, which it must submit to the Department.

The Department's Office of Apprenticeship (OA) will use this information for quality assurance, data collection, and performance assessment of SREs to evaluate whether an SRE complies with the Departmental regulations and standards. Specifically, OA will use the information gathered to gauge the qualifications, plans, and processes of an SRE seeking re-recognition to determine whether it meets the standards described in subpart B. Among the required data are the industry-recognized credentials attained by apprentices for each IRAP.
