The USFS will make recommendations to the BLM concerning surface management and best management practices on leased lands within the CTNF and will issue decisions on special use authorizations (SUAs) for off-lease mining support activities. The USFS SUAs are necessary for any off-lease disturbances/structures associated with the Project located within the CTNF. The Preferred Alternative requires an amendment to the forest plan as outlined in the Final EIS.

The portion of the Project related to USFS SUAs for off-lease activities is subject to the objection process pursuant to 36 CFR parts 218 and 219. The USFS will provide instructions for filing objections in the legal notice published in the newspaper of record for the Draft USFS ROD. The USFS will only accept objections from those who have previously submitted specific written comments regarding the proposed project during scoping or other designated opportunities for public comment in accordance with 36 CFR 218.5(a) and 219.53(a). Objection issues must be based on previously submitted, timely, and specific written comments regarding the proposed project unless they are based on new information arising after designated opportunities. The BLM will release a ROD concurrent with release of the Final USFS ROD.
