BILLING CODE 3510–13–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Marine Recreational Information Program Social Network Analysis In-Person Survey.

OMB Control Number: 0648–xxxx.

Form Number(s): None.

Type of Request: Regular (new collection).

Number of Respondents: 180.

Average Hours per Response: 0.5.

Burden Hours: 90.

Needs and Uses: NOAA Fisheries needs to educate and inform anglers about Marine Recreational Information Programs (MRIP) generally, and the agency is looking to identify how and where anglers get and share their information to more effectively communicate with recreational anglers on data collection issues by focusing communications efforts on important channels. In 2020, MRIP will conduct the Social Network Analysis In-Person Survey, which is the follow up to the 2019 Social Network Analysis Mail Survey. The subsequent analysis will

allow MRIP to more effectively engage with its audiences by identifying key influencers and information pathways, and identifying the areas of greatest need and greatest opportunity for relationship-building. Data gathered will include angler use of and trust in different sources and channels of fisheries management information. These data will be used to identify key information sources for recreational anglers, evaluate regional differences in information sources, and evaluate recreational angler confidence in management and data collection efforts. The information obtained will allow MRIP to more effectively communicate with recreational anglers on data collection issues by focusing communications efforts on important network channels.

Affected Public: Individuals or Households.

Frequency: One-time reporting.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395–5806.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

[RTID 0648–XT025]

Atlantic Highly Migratory Species; Exempted Fishing, Scientific Research, Display, and Shark Research Fishery Permits; Letters of Acknowledgment

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of intent; request for comments; public webinar.

SUMMARY: NMFS announces its intent to issue exempted fishing permits (EFPs), scientific research permits (SRPs), display permits, letters of acknowledgment (LOAs), and shark research fishery permits for Atlantic highly migratory species (HMS) in 2020.

EFPs and related permits would authorize collection of a limited number of HMS, including tunas, swordfish, billfishes, and sharks, from Federal waters in the Atlantic Ocean, Caribbean Sea, and Gulf of Mexico for the purposes of scientific research, data collection, the investigation of bycatch, and public display, among other things. LOAs acknowledge that scientific research activity aboard a scientific research vessel is being conducted. Generally, EFPs and related permits would be valid from the date of issuance through December 31, 2020, unless otherwise specified, subject to the terms and conditions of individual permits. This notice also schedules a public webinar/conference call for applicants, during which NMFS will provide a general overview of the EFP program and hold a question and answer session.

DATES: Written comments received in response to this notice will be considered by NMFS when issuing EFPs and related permits and must be received on or before *December 23, 2019*.

ADDRESSES: Comments may be submitted by any of the following methods:

- *Electronic Submission:* Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#/docketDetail;D=NOAA-NMFS-2019-0132, click the “Comment Now” icon, complete the required fields, and enter or attach your comments.

- *Mail:* Craig Cockrell, Highly Migratory Species Management Division (F/SF1), NMFS, 1315 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Craig Cockrell, phone: (301) 427–8503.

SUPPLEMENTARY INFORMATION: Issuance of EFPs and related permits are necessary because HMS regulations (e.g., regarding fishing seasons, prohibited species, authorized gear, closed areas, and minimum sizes) may otherwise prohibit the collection of live animals and/or biological samples for data collection and public display purposes or may otherwise prohibit certain fishing activity that NMFS has an interest in permitting or acknowledging. Pursuant to 50 CFR parts 600 and 635, a NMFS Regional Administrator or Director may authorize, for limited testing, public display, data collection, exploratory fishing, compensation fishing, conservation engineering, health and safety surveys, environmental cleanup, and/or hazard removal purposes, the target or incidental harvest of species managed under an FMP or fishery
