Refined Brown Aluminum Oxide From the People's Republic of China: Continuation of Antidumping Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (Commerce) and the International Trade Commission (ITC) that revocation of the antidumping duty (AD) order on refined brown aluminum oxide (RBAO) from the People's Republic of China (China) would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, Commerce is publishing a notice of continuation of this AD order.

DATES: Applicable March 6, 2020.

FOR FURTHER INFORMATION CONTACT: Ian Hamilton, Office II, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4798.

SUPPLEMENTARY INFORMATION:

Background

On November 19, 2003, Commerce published its antidumping duty (AD) order on RBAO from China in the **Federal Register**.¹ In September 2019, the ITC instituted,² and Commerce initiated,³ the third sunset review of the AD order on RBAO from China, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its review, Commerce determined that revocation of the *Order* on RBAO from China would likely lead to continuation or recurrence of dumping and notified the ITC of the magnitude of the margins of dumping likely to prevail were the *Order* revoked.⁴

On February 25, 2020, the ITC published its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the *Order* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁵

Scope of the Order

The merchandise covered by this order is ground, pulverized or refined brown artificial corundum, also known as brown aluminum oxide or brown fused alumina, in grit size of $\frac{3}{8}$ inch or less. Excluded from the scope of the order is crude artificial corundum in which particles with a diameter greater than $\frac{3}{8}$ inch constitute at least 50 percent of the total weight of the entire batch. The scope includes brown artificial corundum in which particles with a diameter greater than $\frac{3}{8}$ inch constitute less than 50 percent of the total weight of the batch. The merchandise under investigation is currently classifiable under subheadings 2818.10.20.00 and 2818.10.20.90 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise covered by the order is dispositive.

Continuation of the Order

As a result of the determinations by Commerce and the ITC that revocation of the *Order* would likely lead to a continuation or a recurrence of dumping and of material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act and 19 CFR 351.218(a), Commerce hereby orders the continuation of the *Order*. U.S. Customs and Border Protection (CBP) will continue to collect AD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of the *Order* will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act and 19 CFR 351.218(c)(2), Commerce intends to initiate the next five-year review of the *Order* not later than 30 days prior to the fifth anniversary of the effective date of continuation.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is to seek clearance for the collection of routine information requested of individuals (including but not limited to federal employees, visitors, contractors, associates) who work with or around sources of ionizing radiation on the NIST campus.

The information is collected for the following purposes:

(1) NIST is required by 10 CFR 20.1502 to monitor individuals who may be exposed to ionizing radiation above specific levels. This form will be used to collect information associated with this monitoring and to determine the type of monitoring required.

(2) NIST is required by 10 CFR 20.2106 to maintain records of radiation exposure monitoring. This form will be used to ensure the exposure information collected is properly associated with the individual using unique identifiers. In addition, NIST must provide reports to the monitored individuals when requested and to the NRC annually. This form will be used to ensure the correct information is provided to the individual.

II. Method of Collection

The information will be collected in paper format and electronically as a pdf form.

III. Data

OMB Control Number: New Collection 0693-XXXX.

Form Number(s): NIST-366A.

Type of Review: Regular submission, information collection.

Affected Public: Individuals.

Estimated Number of Respondents: 800 per year.

Estimated Time per Response: 5 minutes.

Estimated Total Annual Burden Hours: 67 hours.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

NIST invites comments on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the

quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
