II. Discussion

On March 20, 2020, the NRC issued for public comment a draft EIS for Holtec's application to construct and operate a CISF for SNF and GTCC waste. The draft EIS for Holtec's license application includes the preliminary analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action. After comparing the impacts of the proposed action (Phase 1) to the No-Action alternative, the NRC staff, in accordance with the requirements in part 51 of title 10 of the *Codes of Federal Regulations*, recommends the proposed action (Phase 1), which is the issuance of an NRC license for 40 years to Holtec to construct and operate a CISF for SNF at the proposed location. In addition, the Bureau of Land Management (BLM) staff recommends the issuance of a permit to construct and operate the rail spur. This recommendation is based on (i) the license application, which includes an environmental report and supplemental documents, and Holtec's responses to the NRC staff's requests for additional

information; (ii) consultation with Federal, State, Tribal, local agencies, and input from other stakeholders; (iii) independent NRC and BLM staff review; and (iv) the assessments provided in the EIS.

The public comment period was originally scheduled to close on May 22, 2020. The NRC has decided to extend the public comment until July 22, 2020 to allow more time for members of the public to submit their comments. Comments of Federal, State, and local agencies, Indian Tribes or other interested persons will be made available for public inspection when received. Public meetings for the draft EIS will be announced at a later time.

Dated: April 21, 2020.
