Provisional Measures

Section 733(d) of the Act states that instructions issued pursuant to an affirmative preliminary determination may not remain in effect for more than four months, except where exporters representing a significant proportion of exports of the subject merchandise request Commerce to extend that four-month period to no more than six months. At the request of exporters that account for a significant proportion of collated staples from China, Commerce extended the four-month period to six months in the proceeding. In the underlying investigation, Commerce published the preliminary determination on January 8, 2020.⁶ The extended provisional measures period, beginning on the date of publication of the preliminary determination, ended on July 5, 2020. Therefore, in accordance with section 737(b) of the Act and our practice,⁷ Commerce will instruct CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of collated staples from China entered, or withdrawn from warehouse, for consumption after July 5, 2020, the final day on which the provisional measures were in effect, until and through the day preceding the date of publication of the ITC's final affirmative injury determination in the **Federal Register**. Suspension of liquidation and the collection of cash deposits will resume on the date of publication of the ITC's final determination in the **Federal Register**.

Notifications to Interested Parties

This notice constitutes the antidumping duty order with respect to collated staples from China pursuant to section 736(a) of the Act. Interested parties can find a list of antidumping duty orders currently in effect at <http://>

enforcement.trade.gov/stats/iastats1.html.

The antidumping duty order is published in accordance with section 736(a) of the Act and § 351.211(b).

Dated: July 14, 2020.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

Appendix

Scope of the Order

The merchandise covered by the scope of this order is certain collated steel staples. Certain collated steel staples subject to this order are made from steel wire having a nominal diameter from 0.0355 inch to 0.0830 inch, inclusive, and have a nominal leg length from 0.25 inch to 3.0 inches, inclusive, and a nominal crown width from 0.187 inch to 1.125 inch, inclusive. Certain collated steel staples may be manufactured from any type of steel, and are included in the scope of this order regardless of whether they are uncoated or coated, and regardless of the type or number of coatings, including but not limited to coatings to inhibit corrosion.

Certain collated steel staples may be collated using any material or combination of materials, including but not limited to adhesive, glue, and adhesive film or adhesive or paper tape.

Certain collated steel staples are generally made to American Society for Testing and Materials (ASTM) specification ASTM F1667-18a, but can also be made to other specifications.

Excluded from the scope of this order are any carton-closing staples covered by the scope of the existing antidumping duty order on Carton-Closing Staples from the People's Republic of China. See *Carton-Closing Staples from the People's Republic of China: Antidumping Duty Order*, 83 FR 20792 (May 8, 2018).

Also excluded are collated fasteners commonly referred to as "C-ring hog rings" and "D-ring hog rings" produced from stainless or carbon steel wire having a nominal diameter of 0.050 to 0.081 inches, inclusive. C-ring hog rings are fasteners whose legs are not perpendicular to the crown, but are curved inward resulting in the fastener forming the shape of the letter "C". D-ring hog rings are fasteners whose legs are straight but not perpendicular to the crown, instead intersecting with the crown at an angle ranging from 30 degrees to 75 degrees. The hog rings subject to the exclusion are collated using glue, adhesive, or tape. The

hog rings subject to this exclusion have either a 90 degree blunt point or 15–75 degree divergent point.

Certain collated steel staples subject to this order are currently classifiable under subheading 8305.20.0000 of the Harmonized Tariff Schedule of the United States (HTSUS). While the HTSUS subheading and ASTM specification are provided for convenience and for customs purposes, the written description of the subject merchandise is dispositive.

SUPPLEMENTARY INFORMATION:

Background. The President, through Executive Order 13872 (May 13, 2019), re-established the President's Advisory Commission on Asian Americans and Pacific Islanders to advise the President, through the Secretary of Commerce and the Secretary of Transportation. The AAPI Advisory Commission provides advice to the President on executive branch efforts to broaden access of AAPI communities, families and businesses to economic resources and opportunities that empower AAPIs to improve the quality of their lives, raise the standard of living of their communities and families, and more fully participate in the U.S. economy.

Public Participation. In accordance with Section 10(a)(2) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), this notice is the public announcement of the Commission's intent to hold a teleconference on August 5, 2020. This meeting is open to the public and interested persons may listen to the teleconference by using the call-in number and pass code to be provided upon registration (see **ADDRESSES**). Prospective agenda items for the meeting include a deliberation of the draft Commission report to the President, discussion regarding ratification of the report, administrative tasks and such other Commission business as may arise during the meeting. The Commission welcomes interested persons to submit written comments at any time before or after the meeting to the Office of the White House Initiative on Asian Americans and Pacific Islanders (see **FOR FURTHER INFORMATION CONTACT**). To facilitate distribution of written comments to Commission members prior to the meeting, the Commission suggests that comments be submitted by facsimile or by email no later than August 4, 2020. The Commission will reserve a portion of the meeting to receive pertinent oral comments from members of the public.

Copies of the Commission open meeting minutes will be made available to the public.

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Day 8-10 Timeline Forecast Survey and Focus Groups

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before September 18, 2020.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648-0757 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to James A. Nelson, Jr., Development and Training Branch Chief at the Weather Prediction Center, NOAA/NWS/NCEP/WPC, 5830 University Research Court—College Park, MD 20740, (301) 683-1493, james.a.nelson@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

Increasingly, user demand is reflecting a need for probabilistic forecasts in the 8 to 10-day time frame. Improved forecast capability means the NOAA National Weather Service Weather Prediction Center (WPC) can begin to address this user need, but the task is complicated by the range of possible forecast format and delivery needs and options. WPC is seeking user-tested and informed guidance on how to present forecasts at the 8 to 10-day

timeframe. WPC is looking to understand how probabilistic forecasts can improve core user decision-making in this range, and for guidance on the format and design of forecasts, based on iterative field-testing of core users. WPC requires a robust understanding of core user needs in this time frame, as well as explanation of the preferred web delivery methods and the optimal mix of design and delivery considerations. WPC also requires information about what products end-users are utilizing and how they are being used. To assess ways to improve guidance products for producing forecasts, the project will include meeting with forecasters, conducting phone interviews and web-based focus groups with core partners and posting an online public survey.

The information will provide WPC staff with the guidance needed to develop 8 to 10-day weather prediction products. Creating easier to use visualizations and communication products will provide the public and decision-makers accurate information that is understandable and will enhance value for a variety of weather-related decision processes. Survey and focus group results will define how to present the probabilistic forecast tools clearly and concisely.

II. Method of Collection

The information collected via the online survey will make use of automated, electronic, mechanical, and other technological techniques. The online survey will use a "responsive" web-based survey, meaning that its display will adapt to a desktop or mobile device screen allowing the public to take the survey whenever they have internet access. The focus group data will be collected manually and entered directly into a desktop computer.
