

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Sealing of Abandoned Areas. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Background documents related to this information collection request are available at <https://regulations.gov> and in DOL-MSHA located at 201 12th Street South, Suite 4E401, Arlington, VA 22202-5452. Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice from the previous collection of information.

III. Current Actions

This information collection request concerns provisions for Sealing of Abandoned Areas. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request from the previous information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219-0142.

Affected Public: Business or other for-profit.

Number of Respondents: 177.

Frequency: On occasion.

Number of Responses: 47,194.

Annual Burden Hours: 4,870 hours.

Annual Respondent or Recordkeeper Cost: \$709,972.

Comments submitted in response to this notice will be summarized in the request for Office of Management and Budget approval of the proposed information collection request; they will become a matter of public record and

will be available at <https://www.reginfo.gov>.

Roslyn B. Fontaine,
Certifying Officer.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-89356; File No. SR-BX-2020-016]

Self-Regulatory Organizations; Nasdaq BX, Inc.; Notice of Filing of Proposed Rule Change To Amend BX's Opening Process in Connection With a Technology Migration

July 21, 2020.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 20, 2020, Nasdaq BX, Inc. ("BX" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Options 2, Section 4, "Obligations of Market Makers and Lead Market Makers"; Options 3, Section 7, "Types of Orders and Order and Quote Protocols"; Options 3, Section 8, titled

"Opening and Halt Cross"; Options 4A, Section 11, "Trading Sessions"; and Options 6B, Section 1, "Exercise of Options Contracts".

The text of the proposed rule change is available on the Exchange's website at <https://listingcenter.nasdaq.com/rulebook/bx/rules>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Options 2, Section 4, "Obligations of Market Makers and Lead Market Makers"; Options 3, Section 7, "Types of Orders and Order and Quote Protocols"; Options 3, Section 8, titled "Opening and Halt Cross"; Options 4A, Section 11, "Trading Sessions"; and Options 6B, Section 1, "Exercise of Options Contracts" in connection with a technology migration to an enhanced Nasdaq, Inc. ("Nasdaq") architecture which results in higher performance, scalability, and more robust functionality. With this System migration, BX intends to adopt certain opening functionality, which currently exists on Nasdaq Phlx LLC ("Phlx") at Options 3, Section 8, "Options Opening Process."

These proposed enhancements will allow BX to continue to have a robust Opening Process. Broadly, the Exchange's proposal is intended to create an opening process similar to Phlx, however, unlike Phlx, BX will not require its Lead Market Makers to enter Valid Width Quotes during the opening.³ Today, BX Lead Market Makers are not required to quote during the opening, that will remain unchanged. Today, BX Lead Market Makers may quote during the opening,

but they are not obligated to quote.⁴ BX Lead Market Makers are required to quote intra-day.⁵ The Exchange proposes to retain the Valid Width NBBO requirements with respect to Opening With a Trade pursuant to proposed Options 3, Section 8(i) and (j). The Exchange's proposal would maintain BX's ability to open with a BBO (no trade) pursuant to proposed Options 3, Section 8(f) either with: (1) A Valid Width NBBO; (2) upon the opening of a certain number of away markets; or (3) if a certain amount of time has passed since the commencement of the Opening Process. When opening with a trade, BX's proposal will adopt Phlx's Opening Processes to further limit the current opening price boundaries on BX.⁶ The proposal would align BX's current Valid Width NBBO requirements to Phlx's Quality Opening Markets requirements.⁷ Phlx's Opening Process requires tighter Valid Width Quotes to open Phlx as compared to the proposed opening for BX.⁸ Today, Phlx's Opening Process is

⁴ Other options markets do not require their lead market makers to quote during the opening. See Cboe Exchange, Inc. Rule 5.31. *See also* The Nasdaq Options Market LLC Options 3, Section 8.

⁵ *See* BX Options 2, Section 4(j).

⁶ *See* proposed BX Options 3, Section 8(i).

⁷ Phlx's Quality Opening Market is a bid/ask differential applicable to the best bid and offer from all Valid Width Quotes defined in a table to be determined by the Exchange and published on the Exchange's website. The calculation of Quality Opening Market is based on the best bid and offer of Valid Width Quotes. The differential between the best bid and offer are compared to reach this determination. The allowable differential, as determined by the Exchange, takes into account the type of security (for example, Penny Pilot versus non-Penny Pilot issue), volatility, option premium, and liquidity. The Quality Opening Market differential is intended to ensure the price at which the Exchange opens reflects current market conditions. *See* Phlx Options 3, Section 8(a)(viii).

Similarly, BX's Valid Width NBBO is the combination of all away market quotes and Valid Width Quotes received over the SQF. The Valid Width NBBO will be configurable by the underlying security, and tables with valid width differentials, which will be posted by the Exchange on its website. Away markets that are crossed will void all Valid Width NBBO calculations. If any Market Maker quotes on the Exchange are crossed internally, then all Exchange quotes will be excluded from the Valid Width NBBO calculation. These two concepts both provide the applicable bid/ask differential and ensure the price at which the Exchange opens reflects current market conditions.

⁸ BX's Valid Width Quote is a two-sided electronic quotation, submitted by a Market Maker, quoted with a difference not to exceed \$5 between the bid and offer regardless of the price of the bid. *See* proposed BX Options 3, Section 8(a)(9). This is compared to Phlx's Valid Width Quote which is a two-sided electronic quotation submitted by a Phlx Electronic Market Maker that meets the following requirements: Options on equities and index options bidding and/or offering so as to create differences of no more than \$0.25 between the bid and the offer for each option contract for which the
