## NUCLEAR REGULATORY COMMISSION

### 10 CFR Part 50

[Docket No. PRM-50-121; NRC-2020-0055]

### Voluntary Adoption of Revised Design Basis Accident Dose Criteria

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Petition for rulemaking; notice of docketing, and request for comment.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) has received a petition for rulemaking from John G. Parillo dated November 23, 2019, requesting that the NRC develop a voluntary rule allowing licensees to adopt revised design basis accident dose acceptance criteria that reflect modern health physics recommendations and modern plant designs, that better balance the protection of the control room operator and of the public, and that relieve the regulatory burden associated with meeting the current control room dose criterion. The petition was docketed by the NRC on February 19, 2020, and has been assigned Docket No. PRM-50-121. The NRC is examining the issues raised in PRM-50-121 to determine whether they should be considered in rulemaking. The NRC is requesting public comment on this petition at this time.

**DATES:** Submit comments by August 10, 2020. Comments received after this date will be considered if it is practical to do so, but the NRC is able to assure consideration only for comments received on or before this date.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

#### II. The Petitioner and Petition

The petition for rulemaking was filed by John Parillo, a private citizen. The petition requests the NRC revise its regulations to allow power reactor licensees to adopt revised accident dose acceptance criteria as an alternative to the accident dose criteria specified in § 50.67, "Accident source term." The revised accident dose criteria would be described in a separate voluntary rule § 50.67(a) specifying a uniform value of 100 milli-Sieverts (10 rem) for offsite locations and for the control room. The petition may be found in ADAMS at Accession No. ML20050M894.

#### III. Discussion of the Petition

The petition states that the NRC design basis accident dose criteria and the resulting design of accident mitigation systems could be perceived to emphasize protection of the control room operator over protection of the public. The control room criterion restricts the calculated 30-day accident dose to the annual occupational limit of 5 rem while the offsite dose criteria allows for a calculated dose of 25 rem in 2 hours. The petition states that the offsite dose criteria were derived from the siting practices of the earliest reactors and do not reflect current health physics knowledge or modern

plant construction. As a result, the petition argues that the design of accident mitigation systems may not be optimized for protecting public health and safety, and that the control room accident dose criterion has proven to be challenging to demonstrate with most plants having very little margin to meet the regulation.

The petition proposes an alternative, voluntary rule that would allow licensees to adopt revised accident dose criteria that the petition asserts resolve the concerns identified above.

#### IV. Conclusion

The NRC has determined that the petition meets the threshold sufficiency requirements for docketing a petition for rulemaking under 10 CFR 2.803, “2.803 Petition for rulemaking—NRC action.” The NRC is examining the merits of the issues raised in PRM–50–121 to determine whether these issues should be considered in rulemaking.

Dated this 12th day of May, 2020.

For the Nuclear Regulatory Commission.

Annette L. Vietti-Cook,

Secretary of the Commission.

## FEDERAL DEPOSIT INSURANCE CORPORATION

### 12 CFR Part 354

RIN 3064–AF31

#### Parent Companies of Industrial Banks and Industrial Loan Companies; Extension of Comment Period

**AGENCY:** Federal Deposit Insurance Corporation (FDIC).

**ACTION:** Notice of proposed rulemaking; Extension of comment period.

**SUMMARY:** On March 31, 2020, the Federal Deposit Insurance Corporation published in the **Federal Register** a Notice of Proposed Rulemaking (NPR) entitled “Parent Companies of Industrial Banks and Industrial Loan Companies” proposing a rule that would require certain conditions and commitments for each deposit insurance application approval, non-objection to a change in control notice, and merger application approval that would result in an insured industrial bank or industrial loan company becoming, after the effective date of any final rule, a subsidiary of a company that is not subject to consolidated supervision by the Federal Reserve Board. The proposed rule also would require that before any industrial bank or industrial loan company may

become a subsidiary of a company that is not subject to consolidated supervision by the Federal Reserve Board, such company and the industrial bank or industrial loan company must enter into one or more written agreements with the Federal Deposit Insurance Corporation. The NPR provided for a 60-day comment period, which would have closed on June 1, 2020. The FDIC has determined that an extension of the comment period until July 1, 2020, is appropriate. This action will allow interested parties additional time to analyze the proposal and prepare comments.

**DATES:** The comment period for the NPR on parent companies of industrial banks and industrial loan companies published on March 31, 2020 (85 FR 17771), is extended from June 1, 2020, to July 1, 2020.

**ADDRESSES:** You may submit comments, identified by RIN 3064–AF31, on the notice of proposed rulemaking using any of the following methods:

- *Agency website:* <https://www.fdic.gov/regulations/laws/federal>. Follow the instructions for submitting comments on the agency website.
- *Email:* [comments@fdic.gov](mailto:comments@fdic.gov). Include RIN 3064–AF31 on the subject line of the message.
- *Mail:* Robert E. Feldman, Executive Secretary, Attention: Comments, Federal Deposit Insurance Corporation, 550 17th Street NW, Washington, DC 20429.

**SUPPLEMENTARY INFORMATION:** On March 31, 2020, the Federal Deposit Insurance Corporation published in the **Federal**

**Register**<sup>1</sup> an NPR proposing a new rule, Part 354 of the FDIC’s Rules and Regulations, that would require certain conditions, commitments, and written agreements for each deposit insurance application approval, non-objection to a change in control notice, and merger application approval that would result in an insured industrial bank or industrial loan company becoming, after the effective date of any final rule, a subsidiary of a company that is not subject to consolidated supervision by the Federal Reserve Board.

The NPR stated the comment period would close on June 1, 2020. An extension of the comment period will provide additional time for interested parties to prepare comments to address the matters raised in the NPR.

Therefore, the FDIC is extending the comment period for the NPR on parent companies of industrial banks and industrial loan companies from June 1, 2020, to July 1, 2020.
