BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2020-0001]

Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this provides the public notice that on December 31, 2019, Canadian Pacific Railway (CP) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 232, Brake System Safety Standards for Freight and Other Non-Passenger Trains and Equipment; End-of-Train Devices. FRA assigned the petition Docket Number FRA-2020-0001.

Specifically, CP proposes to implement a virtual simulation as a

third alternative to satisfy the “hands-on” portion of periodic refresher training required by 49 CFR 232.203(b)(8). Refresher training is required at intervals not to exceed 3 years, and shall consist of classroom and hands-on training, as well as testing. CP states that the simulation will improve consistency and quality of training.

The simulation is based on performance of a Class I freight air brake test and is designed to place the user in a virtual realistic scenario. The user is required to perform a variety of inspection tasks including, but not limited to, identifying closed cut-out cocks, uncoupled air hoses, closed angle cocks, improperly positioned retainer valves, and using a two-way end of train telemetry device. Users are required to successfully complete all tasks in the scenario. CP proposes to limit the class size to 12 students and seeks to apply this waiver systemwide to all CP operating personnel (e.g., trainmen, enginemen, and field supervisors responsible for performing freight air brakes tests.)

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Ave. SE, W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

• *Website:* <http://www.regulations.gov>.

Follow the online instructions for submitting comments.

• *Fax:* 202-493-2251.
