#### Notice Pursuant to the National Cooperative Research and Production Act of 1993—Cooperative Research Group on Numerical Propulsion System Simulation

Notice is hereby given that, on September 11, 2019, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), Southwest Research Institute—Cooperative Research Group on Numerical Propulsion System Simulation (“NPSS”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, Honda R&D Co., Ltd., Saitama, JAPAN, has been added as a party to this venture.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and NPSS intends to file additional written notifications disclosing all changes in membership.

On December 11, 2013, NPSS filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on February 20, 2014 (79 FR 9767).

The last notification was filed with the Department on January 27, 2016. A notice was published in the **Federal**

**Register** pursuant to Section 6(b) of the Act on March 9, 2016 (81 FR 12528).

Theda Kenney or Seleda Perryman, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, telephone: (202) 693–2222.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Department of Labor, as part of a continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, the reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (see 29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with a minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining said information (see 29 U.S.C. 657).

<sup>2</sup> All contract personnel will sign appropriate nondisclosure agreements.

The Standard on Dipping and Coating Operations (29 CFR 1910.126(g)(4)) requires employers to post a conspicuous sign near each piece of electrostatic detearing equipment that notifies employees of the minimum safe distance they must maintain between goods undergoing electrostatic detearing and the electrodes or conductors of the equipment used in the process. Doing so reduces the likelihood of igniting the explosive chemicals used in electrostatic detearing operations.

## II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirement is necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirement, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

## III. Proposed Actions

The agency is requesting to retain the previous burden hour estimate of one (1) hour. There are no program changes or adjustments associated with the information collection requirement in the Standard. The agency has correspondingly adjusted the per response burden to maintain a time burden as close as is possible to the actual time of no hours (1 hour). OSHA is requesting that OMB extend approval of the information collection requirement contained in the Standard on Additional Requirements for Special Dipping and Coating Operations (Dip Tanks) (29 CFR 1910.126(g)(4)). This provision requires the employer to determine how far away goods being electrostatically deteared should be separated from electrodes or conductors, is called the "safe distance." This minimum distance must be displayed conspicuously on a sign located near the equipment.

OSHA has determined that where electrostatic equipment is being used, the information has already been ascertained and that the "safe distance" has been displayed on a sign in a permanent manner. The agency will summarize the comments submitted in response to this notice, and will include this summary in the request to OMB.

*Type of Review:* Extension of a currently approved information collection.

*Title:* Additional Requirements for Special Dipping and Coating Operations (Dip Tanks) (29 CFR 1910.126(g)(4)).

*OMB Control Number:* 1218-0237.

*Affected Public:* Business or other for-profits; Federal Government; State, Local, or Tribal Government.

*Number of Respondents:* 10.

*Frequency of Recordkeeping:* On occasion.

*Total Responses:* 10.

*Average Time per Response:* 0.

*Estimated Total Burden Hours:* 1.

*Estimated Cost (Operation and Maintenance):* \$0.

## IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

(1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the agency name and the OSHA docket number (Docket No. OSHA-2010-0020) for the ICR. You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify electronic comments by your name, date, and the docket number so the agency can attach them to your comments.

Due to security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this website.

All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the

<http://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office for information about materials not available from the website, and for assistance in using the internet to locate docket submissions.
