

expenses and catch distribution (the share of fish that is sold, retained for home consumption, directed to customary exchange, etc.) for the Mariana Archipelago small boat-based reef fish, bottomfish, and pelagics fisheries with which to conduct economic analyses that will improve fishery management in those fisheries; satisfy NMFS' legal mandates under Executive Order 12866, the Magnuson-Stevens Fishery Conservation and Management Act (U.S.C. 1801 *et seq.*), the Regulatory Flexibility Act, the Endangered Species Act, and the National Environmental Policy Act; and quantify achievement of the performances measures in the NMFS Strategic Operating Plans. Respondents will include small boat fishers across the Mariana Archipelago (Guam and the Commonwealth of the Northern Mariana Islands) and their participation in the economic data collection will be voluntary. These data will be used to assess how fishermen will be impacted by and respond to regulations likely to be considered by fishery managers.

Affected Public: Business or other for-profit organizations.

Frequency: One time.

Respondent's Obligation: Voluntary.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; U.S.—Canada Albacore Treaty Reporting System

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on February 24, 2020, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: U.S.—Canada Albacore Treaty Reporting System.

OMB Control Number: 0648–0492.

Form Number(s): None.

Type of Request: Regular (extension of a current information collection).

Number of Respondents: 118.

Average Hours per Response: 5 minutes for the request to be placed on the eligible list per year; 3 hours for required vessel markings; 5 minutes for logbook entries; 10 minutes for each set of two haul reports for border crossings per year.

Burden Hours: 43 hours.

Needs and Uses: The National Marine Fisheries Service (NMFS), West Coast Region (WCR), manages the United States (U.S.)–Canada Albacore Tuna Treaty of 1981 (Treaty). Owners of vessels that fish from U.S. West Coast ports for albacore tuna (*Thunnus alalunga*) are required to notify the NMFS WCR of their desire to be on the list of vessels provided to Canada each year indicating vessels eligible to fish for albacore tuna in waters under the jurisdiction of Canada. Additionally, vessel operators are required to report in advance their intention to fish in Canadian waters prior to crossing the maritime border as well as to mark their fishing vessels to facilitate enforcement of the effort limits under the Treaty. Vessel operators are also required to maintain and submit a logbook of all

catch and fishing effort. The regulations implementing the reporting and vessel marking requirements under the Treaty are at 50 CFR part 300.172–300.176.

The estimated burden above includes hours to complete the logbook requirement, although it is assumed that most if not all of the respondents already complete the required logbook under the mandatory West Coast Highly Migratory Species Fishery Management Plan (HMS FMP), OMB Control No. 0648–0223. Duplicate reporting under the Treaty and HMS FMP is not required. Most years, there will be much less fishing (and thus less reporting) under the Treaty than the level on which the estimate is based.

Affected Public: Business or other for-profit.

Frequency: Annual.

Respondent's Obligation: Mandatory.

Legal Authority: Magnuson-Stevens Fishery Management and Conservation Act.
