

adverse health effects that may result from occupational exposure to asbestos. The major information collection requirements in the standard include: Implementing an exposure monitoring program that informs workers of their exposure-monitoring results; ensuring notification of on-site employers, at multi-employer worksites, when establishing regulated areas for work performed with asbestos-containing materials (ACMs) and/or presumed asbestos-containing materials (PACMs), of the requirements for such regulated areas, and the measures necessary to protect workers from overexposure; providing medical surveillance for workers potentially exposed to ACMs and/or PACMs, including administering a worker medical questionnaire, providing information to the examining physician, and providing the physician's written opinion to the worker; and maintaining records of objective data used for exposure determinations, worker exposure monitoring and medical surveillance records, training records, the record (*i.e.*, information, data, and analyses) used to demonstrate that PACMs do not contain asbestos, and notifications made, as well as received by building or facility owners regarding the content of ACMs and/or PACMs.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is proposing an increase in the information collection requirements contained in the Asbestos in Shipyards Standard. The adjustment is primarily the result of the increase of the number of establishments in shipyards. The agency is requesting an increase of 47 hours in the current burden hour total (from 1,189 hours to 1,235 hours). The agency will summarize the comments submitted in response to this notice and

will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Asbestos in Shipyards Standard (29 CFR 1915.1001).

OMB Control Number: 1218-0195.

Affected Public: Business or other for-profits; Federal Government; State, Local or Tribal Government.

Frequency: On occasion.

Average Time per Response: Various.

Estimated Total Burden Hours: 1,235.

Estimated Cost (Operation and Maintenance): \$44,578.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

- (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the agency name and the OSHA docket number (Docket No. OSHA-2012-0009) for the ICR. You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify electronic comments by your name, date, and the docket number so the agency can attach them to your comments.

Due to security procedures, the use of regular mail may cause a significant delay in the receipt of comments.
