

change does not modify the opening auction process, but rather makes it possible for this process to begin in a timelier manner for one option class. Therefore, the Exchange believes its opening process will continue to contribute to a fair and orderly opening of VIX options. The Exchange further notes that initiating the opening process for an index option at a specified time, rather than following dissemination of the first value of the underlying index, is not novel or unique. The Exchange represents that prior to October 7, 2019, VIX Index options opened at a specified time, rather than after dissemination of the VIX Index value. The opening rotation for VIX Index options during the Global Trading Hours session also begins at a specified time, rather than after dissemination of the VIX Index value.¹⁹ Additionally, the Exchange notes that the rules of another options exchange permit index options to open at 9:30 a.m., rather than waiting for the dissemination of the underlying index value.²⁰ For these reasons, the Commission believes that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest. Accordingly, the Commission hereby waives the 30-day operative delay and designates the proposal operative upon filing.²¹

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.
