

participation in the work of the IATTC, focusing on the development of U.S. policies, positions, and negotiating tactics. The purpose of the SAS is to advise the GAC on scientific matters. NMFS West Coast Region staff provide administrative support for the GAC and SAS. The meetings of the GAC and SAS are open to the public, unless in executive session. The time and manner of public comment will be at the discretion of the Chairs for the GAC and SAS. The SAS and GAC meetings will no longer be held in-person in the Pacific Conference Room at NMFS, Southwest Fisheries Science Center in La Jolla, California, and will instead be held by webinar only.

Currently, the 95th meeting of the IATTC, the 41st Meeting of the Parties to the Agreement on the International Dolphin Conservation Program (AIDCP), and IATTC and AIDCP working group meetings are scheduled to be held from August 3 to August 15, 2020, in La Jolla, California. For more information and updates on these meetings, please visit the IATTC's website: <https://www.iattc.org/MeetingsENG.htm>.

SAS and GAC Meeting Topics

In a memorandum from the IATTC Director to the IATTC Commissioners and Heads of Delegation on April 27, 2020 (Ref. No. 0189–410), the IATTC Director announced a phased approach to the 2020 meeting of the Scientific Advisory Committee (SAC) to the IATTC, which is currently still being discussed. Depending on the outcome of those discussions, and the final approach to the 2020 meeting of the SAC to the IATTC, the SAS and GAC meeting topics described below may need to be adjusted.

The SAS meeting agenda will include, but is not limited to, the following topics:

- (1) Outcomes of the 2020 stock assessments and stock status updates for tuna, tuna-like species, and other species caught in association with those fisheries in the eastern Pacific Ocean;
- (2) Evaluation of the IATTC Staff's Recommendations to the Commission for 2020;
- (3) Issues related to non-target species, such as sharks, seabirds, sea turtles;
- (4) Evaluation of U.S. priorities for the 95th meeting of the IATTC and priorities from other IATTC members; and
- (5) Other issues as they arise.

The GAC meeting agenda will include, but is not limited to, the following topics:

- (1) Outcomes of the 2020 stock assessments and stock status updates for

tuna, tuna-like species, and other species caught in association with those fisheries in the eastern Pacific Ocean;

- (2) Issues related to non-target species, such as sharks, seabirds, sea turtles;

- (3) Recommendations and evaluations by the SAS;

- (4) Recommendations to the U.S. Section on issues that may arise at the 95th meeting of the IATTC, including the IATTC Staff's Recommendations to the Commission, U.S. priorities, and priorities from other IATTC members; and

- (5) Other issues as they arise.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to William Stahnke (see **FOR FURTHER INFORMATION CONTACT**) by May 29, 2020.

Authority: 16 U.S.C. 951 *et seq.*

Dated: May 14, 2020.

Hélène M.N. Scalliet,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Southeast Region Permit Family of Forms

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 15, 2020, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration.

Title: Southeast Region Permit Family of Forms.

OMB Control Number: 0648–0205.

Form Number(s): None.

Type of Request: Regular submission (Revision of an existing collection).

Number of Respondents: 10,311.

Average Hours per Response:

- Vessel EEZ Permit Application, including Golden Tilefish Endorsement and Smoothhound Shark Permit, 50 minutes;

- Wreckfish Permit Application, 55 minutes;

- Dealer Permit Application, 30 minutes;

- Aquacultured Live Rock Permitting and Reporting—New Permit—Deposit or Harvest Report, 15 minutes; Notice of Intent to Harvest, 10 minutes; Federal Permit Application, including Site Evaluation Report, 70 minutes;

- Aquacultured Live Rock Permitting and Reporting—Renew Permit—Deposit or Harvest Report, 15 minutes; Notice of Intent to Harvest, 10 minutes; Federal Permit Application, 50 minutes.

- Vessel Operator Card Application for Dolphin and Wahoo, or Rock Shrimp, 30 minutes;

- Fishing in Colombian Treaty Waters Vessel Permit Application, 50 minutes;

- Permit Holder Change of Information, 5 minutes;

- Gulf of Mexico Reef Fish Permit Consolidation, 5 minutes;

- Duplicate Permit, Card, or Decal, 5 minutes;

- Notifications of Lost or Stolen Traps or Authorization for Retrieval (golden crab, reef fish, snapper-grouper, spiny lobster), 10 minutes;

- Golden Crab Permittee Zone Transit Notification, 10 minutes;

- Annual Landings Report for Gulf of Mexico Shrimp, 20 minutes;

- Vessel Permit Transfers and Notarizations, 10 minutes; and

- International Maritime Organization (IMO) Number Registration, 30 minutes.

Total Annual Burden Hours: 7,248.

Needs and Uses: The National Marine Fisheries Service (NMFS), Southeast Regional Office (SERO), Permits Office administers Federal fishing permits in the U.S. exclusive economic zone (EEZ) of the Caribbean Sea, Gulf of Mexico (Gulf), and South Atlantic under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1801. The SERO Permits Office proposes to extend and to revise parts of the current collections-of-information approved under OMB Control Number 0648–0205.

The NMFS Southeast Region manages the U.S. Federal fisheries in the Caribbean, Gulf, and South Atlantic under the fishery management plans (FMPs) for each region. The regional fishery management councils prepared the FMPs pursuant to the Magnuson-

Stevens Act. The regulations implementing the FMPs, including those that have recordkeeping and reporting requirements, are located at 50 CFR part 622.

The recordkeeping and reporting requirements at 50 CFR part 622 form the basis for this collection of information. The NMFS Southeast Region requests information from fishery participants. This information, upon receipt, results in an increasingly more efficient and accurate database for management and monitoring of the Federal fisheries in the Caribbean, Gulf, and South Atlantic.

The SERO Permits Office proposes to extend and to revise the collection-of-information approved under OMB Control Number 0648–0205. NMFS proposes to revise the Federal permit applications for Vessels Fishing in the EEZ (Vessel EEZ), Change of Information Form, Vessel Fishing in the Colombian Treaty Waters, Duplicate Federal Fishery Permits, Operator Card or Decal, Aquacultured Live Rock (new permit), Aquacultured Live Rock (permit renewal), Harvest of Aquacultured Live Rock in the EEZ, Southeast Region Issued Operator Card, Consolidate Gulf of Mexico Reef Fish permits, Vessels Fishing for Wreckfish in the South Atlantic States (Wreckfish), and the Annual Dealer permit.

The proposed revisions to the specified application forms are administrative and would update outdated URLs, telephone numbers, and office hours. NMFS estimates that the proposed revisions would not change the annual number of respondents or responses, or annual costs to affected permit applicants from estimates in the currently approved collection. Across the application forms, NMFS estimates these revisions would not increase the overall time burden.

The SERO Permits Office also proposes to modify the limited access permits by updating the form field name related to the selling price of the permit, along with removing the section related to the permit's selling price. NMFS does not anticipate these revisions will materially change the time burden to the applicants.

The SERO Permits Office also proposes to modify the Vessel EEZ application to include a checkbox and language related to the compliance of regulatory requirements. NMFS does not anticipate these revisions to the form will materially change the time burden to the applicants.

Affected Public: Businesses or other for-profit organizations, and individuals or households.

Frequency: Annual and periodic.

Respondent's Obligation: Mandatory.
Legal Authority: 16 U.S.C. 1801 *et seq.*

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0205.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XA140]

Fisheries of the Gulf of Mexico and the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a correction of a public meeting.

SUMMARY: The meeting for the SEDAR 68 Data Plenary Webinar II for Gulf of Mexico and Atlantic scamp grouper has been revised. The SEDAR 68 assessment process of Gulf of Mexico and Atlantic scamp will consist of a series of data and assessment webinars, and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 68 Data Plenary Webinar II will be held May 26, 2020, from 1 p.m. to 5 p.m.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request

webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571–4366; email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The original meeting notice published in the **Federal Register** on May 7, 2020 (85 FR 27210). The webinar was originally scheduled from 2 p.m. to 4 p.m. It will now be held from 1 p.m. to 5 p.m. This change is a result of the pandemic impacts to the stock assessment schedule in the southeast region. The Southeast Fisheries Science Center (SEFSC) has determined it will halt further work on SEDAR 68 after this webinar. As such there is a need to bring existing work to a logical stopping point so extra time is needed on this webinar.

The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data/Assessment Workshop, and (2) a series of webinars. The product of the Data/Assessment Workshop is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses, and describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Data Webinars are as follows:

1. An assessment data set and associated documentation will be developed during the webinars.
